TURK METHODS MAY DISRUPT PEACE PARLEY

London Hears That There Is Serious Danger of Break

England Takes Firm Stand on Oil Leases in Mosul

London, Dec. 27.—(By The A. P.) —A Reuters dispatch from Lausanne says:

"There is serious danger of the Near East conference becoming abortive if the Turks persist in their present methods."

Lausanne, Dec. 27.—(By The A. P.) —Great Britain informed Turkey today that the British will never abandon the Mosul oil villayet as required by the Turkish delegation and that no [illegible] of the Near East conference can influence the British government to recede from its position on this matter.

The British position is outlined in a letter sent by Lord Curzon which assured the British government had expelled the Turks from the Mosul area and occupied and administered it. The British had taken a pledge to free the Arabs from Turkish rule and establish the government of the Irak and England, since then had repeatedly given her word that the Arabs would not be interfered with.

Lord Curson added that Great Britain had given her solemn pledge to let no foreign power take any part of this territory and that she would steadfastly adhere to her promise.

ENGINEER IS BADLY HURT

Leaps From Engine as It Sidewipes Freight Train Near Cambridge —Leg is Fractured.

C. E. Kemp, 320 1-2 East Main street, Baltimore and Ohio engineer, is in Cambridge hospital, Cambridge, with serious injuries suffered Monday evening at 6.05 o'clock when the locomotive he was running, sideviped a freight train near the tunnel west of Cambridge.

Kemp jumped for his life out of the cab window, and suffered a compound fracture of the left leg close to the ankle, and cuts and bruises about the head and face. He was taken to the hospital and his injuries were dressed by Dr. W. G. Lane and Dr. Vorhies and Dr. P. D. Barlow who was called from McMechen. Other members of the crew were uninjured.

Kemp was the engineer of the first engine of a double header coming west, and the train crashed into a caboose and four cars of a labor train which was taking siding. It is said that the accident was caused by a misunderstanding of orders between the conductor and engineer.

One car was derailed and traffic between Cambridge and Zanesville was tied up for sometime.

While the fracture suffered by Kemp was a very serious one and the bones protruded through the flesh he is getting along very nicely but will not be able to be moved for several weeks.

BOY'S "BB" GUN IS CAUSE OF RUNAWAY

Valoris Price of 41 Allen street, was the hero of a runaway Tuesday morning. A man was loading coal from a car in South Fourth street into a wagon to which was hitched a team of horses. The horses became frightened and began to run north on Fourth street. Price climbed onto the wagon from the rear and from there onto the back of one of the horses. He succeeded in bringing the team to a halt by the team it reached Locust street. He then got hold of the reins, which were dragging, and drove the team back to the car.

Eye witnesses say that a small boy with a BB gun stung one of the horses with a shot and caused them to run away.

GRANNY ELBEN SAVES LIFE OF PRISONER

Edward "Granny" Elben, almost an habitual inmate of the city prison, broke into the hero column last night at the city jail. A colored "sleeper" went into the land of dreams with a lighted cigarette in his mouth last night, the cigarette setting fire to his clothes. Elben was awakened by the smell of smoke and with admirable presence of mind grabbed a bucket of water and threw it on the sleeping man, putting out the fire.

SENATE WAITER DROPS FLASK; LOSES HIS JOB

Washington, Dec. 27.—The drive to keep bootleggers out of the capitol building served from the government payroll a negro waiter, said by senate officials to have dropped a flask of Christmas whisky on the floor of the senate restaurant.

Senator Curtis, chairman of the senate rules committee, who recently ordered the capitol police to arrest all bootleggers found in the building regardless of what influence they might invoke, deprived the waiter of his job after an investigation of the flask episode, which occurred a few days before Christmas in the public dining room section of the restaurant.

At the time the breaking of the flask attracted theattention of only a few persons and quick use of the mop speedily wiped away the evidence.

Lousiana Town Stirred By State Investigation of Hooded Riders

Above—J. D. Rooney, federal agent, at left, supervising the search of divers in Lake LaFourche, La., for the bodies of F. W. Daniels and T. F. Richards. The men disappeared following their kidnapping by a hooded gang, and later their bodies were brought to the surface of the lake by a dynamite blast. Right is Tod Davenport, one of the men kidnapped with Daniels and Richards and then released.

Below—This shows the village of Mer Rouge, La., in the national spotlight as the scene of the murders of the F. W. Daniels and T. F. Richards. Federal agents now are investigating Ku Klux Klan activities in the neighborhood. State troops are guarding the streets.

EVOLUTION IS WELL FOUNDED

Scientists Adopt Resolution Declaring Move to Prohibit Its Teaching in Schools is Mistake.

Cambridge, Mass., Dec. 27.—A resolution affirming that "no scientific generalization is more strongly supported by thoroughly tested evidences than is that of organic evolution" was adopted yesterday by the Council of American Association for the Advancement of Science. The resolution expressed the conviction that any legislation attempting to limit the teaching of the doctrine of evolution would be "a profound mistake."

It cited an attempt in several states to prohibit the teaching of evolution in the public schools and the wide publicity given to assertions that the theory of evolution was a mere guess which leading scientists were abandoning. It called attention to the fact that the association had a membership of more than 11,000 persons, including the American authorities in all branches of science.

"There is no ground whatever," the resolution said, speaking of the scientific evidence of the evolution of plants and animals and man, "for the assertion that these evidences constitute a 'mere guest.'"

It affirms that the evidence in favor of the evolution of man is "sufficient to convince every scientist of note in the world" that the theory of evolution is "one of the most potent of the great influences for good that have thus far entered into human experience," and that to limit its teaching "could not fail to injure and retard the advancement of knowledge and human welfare by denying the freedom of teaching and inquiry which is essential to all progress."

ASK FOR DRINK YOU ARE GUILTY

Court Holds Enforcement Act is Incorrectly Worded and Bucyrus Man Escapes Conviction.

Columbus, Dec. 27.—The supreme court ruled yesterday that the term "soliciting intoxicating liquor, as used in the Crabbe act, means asking another for liquor, and does not mean offering to sell liquor.

A change in the law likely will be made at the next session of the legislature.

It had been supposed that soliciting referred to taking orders for liquor, but the court applied the dictionary meaning of the word in a unanimous opinion written by Judge Hough.

The case is that of W. H. Keifer of Norwalk. Somebody asked him if he had liquor to sell. He said he had some for $14 a quart. Two prohibition officers heard the conversation and arrested Keifer, who was convicted of soliciting. The supreme court, reversing conviction, said the man who approached Keifer did the soliciting.

ARMY OFFICER FIRED.

Boston, Dec. 27.—Major Malcolm Wheeler-Nicholson, recently court martialled for his criticisms of the regular army, has been informed by the war department of his separation from the service. In a letter to President Harding, he charged that "Prussianism" existed in the army. He later wrote a pamplet entitled "Abolish the army or reform it."

SHIP SINKING; SAILOR SEEKS MATCH FOR CIGAR

New York, Dec. 27.—The captain and crew of the schooner Gordon Fudge of St. Johns, N. F., came into port yesterday on the British freighter Menominee after being rescued from almost certain death in a violent storm.

The Menominee picked up the schooner 1000 miles off the American coast. The little boat was bobbing around in the gale, her sails in shreds and her rudder post shattered. Both her life boats had been crushed.

Captain G. O. Fudge, skipper and owner of the schooner, said that he had been fighting the storm for 14 days. When the Menominee hove to and sent her small boat to the schooner, Fourth Officer MacKie said the Fudge was sinking. There was a pronounced list and one of her port bulwarks had been shattered by the gale.

But sitting astride the rail, with a friendly grin on his face, was Pat Hickey, able seaman and optimist.

"I've got a cigar," he yelled to MacKie, "have you got a match?"

The match being supplied Hickey lighted his cigar and then helped pull the Menominee boat to one side of the steamer.

MONDELL MAY SUCCEED FALL

Wyoming Congressman's Friends Say They Have Heard Rumor of Cabinet Change.

Washington, Dec. 27.—Published reports that Secretary Fall of the interior department might soon resign from the cabinet resulted in a statement by a White House spokesman yesterday that President Harding had no information about such a move. It was indicated in other quarters that the secretary himself probably would take notice of the reports and issue a statement regarding them when he returned to Washington from a holiday visit in Virginia.

Cheyenne, Wyo., Dec. 26.—For some time there has been current in Cheyenne a report that Secretary Fall would resign shortly in order to devote his time to his private affairs and that he would be succeeded by Congressman Frank W. Mondell of Wyoming.

A federal official last week said Mr. Fall had told him that he took the secretarship only on the solicitation of President Harding and that he did not propose to serve out his time.

PRISONERS ON WAY TO PRISON DITCHED

Urichsville, , Dec. 27.—Charles Swick, 50, driver, was seriously injured and Chief Ray Duling and Sergeant Karl H. Johnson of the Coshocton police force, and four liquor law violators they were taking to the Stark county workhouse were slightly injured yesterday when the automobile skidded over a 10-foot embankment, two miles north of here and turned turtle.

The prisoners were returned to Coshocton to recover from their injuries.

DR. CRAFTS DEAR

Washington, Dec. 27.—Dr. Wilbur Crafts, for 28 years superintendent of the International Reform Bureau, which he founded and was widely known because of his activities on behalf of prohibition and similar movements, died at a hospital here today of pneumonia. He was 73 years old.

LOUISIANA DOCTOR IS LOCKED UP

Arrested in Baltimore on Charge of Murder at Mer Rouge

Was Former Mayor of Louisiana Town and Active Against Bootleggers

Baltimore, Md., Dec. 27.—A writ of habeas corpus for Dr. B. M. McKoin, former mayor of Mer Rouge, La., arrested here yesterday on a charge of murder was obtained this morning.

The writ which was issued by Chief Judge James P. Gorter in the city court was made returnable immediately.

Upon the request of Attorney Carman, Judge Gorter postponed the habeas corpus hearing until tomorrow.

Extradition papers will be forwarded from Louisiana to Baltimore for Dr. McKoin, a telegram from Governor Parker today.

The dispatch, sent to the police department, said:

"Hold Dr. McKoin for extradition. Papers will be forwarded. Thanks"

Accordingly papers were prepared for presentation at Dr. McKoin's hearing in police court asking that he be held for 10 days.

Dr. Hugh H. Young, head of the Brady Institute at Johns Hopkins hospital, with whom Dr. McKoin worked, conferred with the former mayor for more than an hour this morning.

Dr. McKoin insisted he was not a member of the Ku Klux Klan. He praised the organization, however, saying that "the members did much to hold down bootlegging and immorality while I was mayor of Mer Rouge." He also declared that lawlessness is common at Mer Rouge and that he was among those who started to clean up the place. The result, he said, was a hard battle with bootleggers, moonshiners and men of bad repute.

"Just before I left Mer Rouge a boy of good family was shot in the back. What did the sheriff and governor do? The case was dismissed after a jury filled with bootleggers and the vicious element declared the alleged murderer innocent.

"Now, however, when a bootlegger and some one else is killed the governor joins in the investigation. This affair, in my opinion, will decide whether the decent and good element of the town will control."

YOUTH TAKES HIS OWN LIFE

Uses Silken Bath Robe Cord to Strangle Self to Death at Middleown.

Middletown, Dec. 27.—Herbert Saxe Urmy, 22 years old, son of Rev. Ralph B. Urmy, pastor of the Bellevue Methodist Episcopal church, Pittsburgh, Pa., was found dead in his room here last night with a silken bathrobe cord knotted about his neck. Death from suicide, due to strangulation, was the verdict of the coroner's inquest.

The coroner has found no motive for the suicide. He said, however, that he found notes in Urmy's room which indicated that the young man, during 1917, had feared that he was losing his mind.

The dead man was a graduate of Princeton university and a member of the Princeton club of New York.

He was found dead in his roof by his land lady just 12 hours after leaving his home in Pittsburgh where he had spent the Christmas holidays. He was to have been at work again this morning at a large industrial plant where he was taking a course to become a foreign salesman. He had been employed in this city but two weeks.

An investigation by authorities as well as statements from the father who arrived today to take charge of the body, leaves the motive of suicide a mystery.

Urmy served as an officer in the navy for two years during the world war.

AIRPLANES HUNT MISSING LAKE TUG

Cleveland, Dec. 27.—Two airplanes left the United States government air mail field here shortly before 11 o'clock this morning for Erie, Pa., from which place they will cross Lake Erie to Long Piint in an effort to find some trace of the tug Cornell, or the seven missing members of its crew, H. B. Shaver, superintendent of the air mail station announced.

LOYAL B. & O. MEN GET BONUS

Company Distributes Total of Half Million to Men Who Remained At Work During Strike

Baltimore, Md., Dec. 27.—Bonus checks aggregating $500,000 were given as Christmas presents to those employes of the Baltimore and Ohio railroad who remained loyal to the corporation during the late railroad strike. Employes of the heavy repair shops of the company laid off during the holidays will resume work January 2. This announcement was made yesterday at the general offices of the railroad.

A month's extra pay was granted those who served the company loyally during the full time of the strike with a graduated scale for less than the full period.

Changes in Harding Cabinet Again Are Rumored In Washington

Walter S. Dickey — Albert B. Fall — Carmi Thompson

Report of the decision of Secretary of Interior Albert B. Fall to resign has brought up the names of Carmi Thompson of Cleveland and Walter S. Dickey of Kansas City as his possible successors. Both are leaders in Ohio and midwest Republican politics.

AMERICA'S OLDEST CAT IS DEAD IN MONTANA

Billings, Mont., Dec. 27—Thomas Patriarch, the oldest cat in the United States was dead here today aged 24 years and three months, at the home of Mr and Mrs. Grover Sample.

Thomas was born in Northfield, Minn., in 1898 and for a long time was mascot on Northern Pacific trains between Mandan and Glendive. Owing to the loss of his teeth he ceased to bother mice and lived on condensed milk during his final year.

Thomas' claim of oldest cat in the country was threshed out a year ago when a 20-year old kitten at Missoula, laid claim to the age championship. The story appeared in papers all over the country and no cat arose to dispute the Billings Tom's honors.

KAHN'S PLAN UNPOPULAR

New York Banker's Suggestion to Solve Foreign Debt Problem Is Not Well Received.

Washington, Dec. 27.—The solution of America's foreign debt problem proposed by Otto H. Kahn, the New York banker, failed generally to strike a responsive chord yesterday in official circles in Washington.

Members of the American debt funding commission took note of Mr. Kahn's proposal that the United States differentiate between the $7,500,000,000 loaned to European countries before the armistice and the $2,500,000,000 loaned after hostilities ceased and arrange differing methods of repayment, but pointed out that the act of congress creating the commission would permit no such differentiation even if considered advisable.

Members of congress generally expressed decided opposition to the New York banker's suggestion that at least a portion of the debt be canceled, several leaders in both the senate and house declaring that the American people were in no mood to approve any such action.

The views of Mr. Kahn as presented in a letter to Senator Smoot, a member of the debt funding commission, drew particular fire from Representative Frear, who addressed a letter to Senator Smoot asserting that "the commission should apprise foreign governments at an early day of the anomalous position occupied by Mr. Kahn and that he does not speak for the commission, for the congress or for the American people."

LA FOLLETTE TO FIND OPPOSITION

Score of Republican Senators in Informal Conference Agree to Oppose Amendment to Navy Bill.

Washington, Dec. 27.—More than a score of Republican senators in informal conference today before the senate reconvened decided to oppose the amendment offered by Senator Borah, Republican, Idaho, to the naval appropriations bill which would request President Harding to call an international economic and disarmament conference.

MATCH IGNITES GAS AT FILLING STATION

Nelson Vanatta, driving a Ford coupe, was singed and badly frightened this morning about 9:20 after he lighted a match for a cigar as a filling station attendant at 11th and Main was engaged in filling his gasoline tank with high test gasoline.

Fumes from the gasoline burst into flames and set fire to the interior of the car as the match was lighted and Vanatta who was alone in the car, found difficulty in getting the door of the car open and getting out.

The squad wagon from headquarters and the West Newark company responded to the call and put the blaze out with chemicals. The interior of the car was badly burned and all of the windows in the car cracked from the heat.

COPS WRECK BRICK WALL HUNTING FOR BOOZE; CHARGE THIRD OFFENSE

Liquor Is Concealed in Wall, Hole Concealed By Cork and Strip of Wood—Officers Follow Noses to Locate Booze Cache.

Ross Mitchell, who was arrested last night following a raid on his soft drink parlor at 86 South Second street Tuesday afternoon, was arraigned in municipal court this morning on a charge of illegal possession of intoxicating liquor, third offense. Mitchell entered a plea of not guilty and was bound over to the grand jury under $1000 bond.

Mitchell on a previous occasion was arrested on a liquor case and entered a plea of guilty to illegal sale and possession of intoxicating liquor. Under the law these offenses constitute separate violations, consequently the third offense charge.

Safety Director Sherburne, Chief of Police Sheridan, Officers Hurbaugh, Murray, Jones, Williams and State Prohibition Officer Baynham of Nelsonville conducted the raid on Mitchell's place about 3 o'clock Tuesday afternoon. The search for the discovery and the removal of the liquor occupied nearly two hours.

In the finding of the liquor the officers disclosed one of the most ingenious methods of concealing liquor which has been discovered, so far by local officers.

A preliminary search of the bar and premises failed to disclose any evidence of liquor. However in the cellar Officers Hurbaugh and Murray finally discovered a cork which fitted a bottle in the brick wall, the cork being hidden from ordinary view by a wooden runner along the cellar steps. The sense of smell, highly developed by the raiding squad, convinced the officers that there was liquor nearby and a sledge hammer was directed at the brick wall. The forces of the blows, communicated through the brick and dirt, broke a five gallon glass bottle, which the officers finally dug out of the ground. The ground was sopping wet however and some of the "mud" was taken to City Chemist East where tests showed 5 per cent alcohol or 90 proof liquor.

Quincey Sutley, who was arrested last week on a charge of illegal possession of intoxicating liquor, entered a plea of guilty in municipal court this morning and was fined $400 and costs.

The case of Sotu Kermele, arrested Saturday night at 11th and Jefferson street on a charge of illegal possession of liquor, was placed under $500 bond by Judge Bolton today and the case set for hearing January 3rd at 9 o'clock.

The case of Wilbur Dusthimer, arrested on charges of illegal transportation of liquor and driving a car while intoxicated, has been set for hearing in municipal court for 1 o'clock Thursday afternoon.

BERNHARDT HAS RELAPSE

Famous Actress Suffers From Too Much Activity Following Her Improvement Yesterday.

Paris, Dec. 27.—(By The A. P.)—Madame Sarah Bernhardt's condition took another turn for the worse today. Physicians ascribed it to the fatigue following her activity yesterday when she arose from her bed, partook of solid food and received many callers.

The actress' household is again depressed, although Madame herself is just as confident as ever that she will recover.

Two more doctors were called in this morning besides Professors Obissier and Marot and after along consultation they issued the following instructions to members of the household:

"The undersigned physicians insist upon the absolute necessity of letting no one enter the sick room.

(Signed) "Labbe, Desnos, Obissier, Marot".

"These orders are clear" said Madame Normand, governess of the household after roundly scolding the butler for permitting the correspondent to enter the house. "but Madame insists upon seeing whomsoever she pleases".

The elderly nurse who is attending the actress, said: "Madame is a very headstrong patient."

The physicians have ordered that the doorbell be disconnected and that the telephone receiver be left off the hook. All calls must originate within the house, as the constantly ringing bell might annoy the patient. The doctors do not conceal their admiration for Madame Bernhardt's courage, declaring that she is "the most wonderful woman."

10TH CATHOLIC CHURCH DESTROYED BY FIRE

Montreal, Decl 27.—Word was received yesterday that the 10th fire to sweep a Catholic edifice in Canada this year had destroyed the parish church of St. Thomas D'Alfred at Fassett Monday night.

Unlike several of the other blazes it was said there were no traces of incendiarism.

Fassett is located near Buckingham, between Montreal and Ottawa.

ARMOUR CO. CHARTERED.

Dover, Del., Dec. 27.—The certificate for a charter for Armour and company of Delaware was filed at the office of the secretary of state here today. The company is capitalized at $160.000.000 and is authorized to deal in livestock of all kinds.

COP'S SLAYER WINS POINT

Court Dismisses One Charge Because Location of Crime Was Not Stated.

Columbus, Dec. 27.—The second day of the trial of Stanley Forbes, alias Slim Martin, charged with being one of the three men responsible for the death of Patrolman Grannison Koehler, shot in a gun battle here November 28, opened this morning with one count of the indictment stricken out.

Judge Scarlett late yesterday sustained a defense motion that the count charging Forbes with murder while perpetrating a robbery be nullified because the place where the crime was committed was not specified. While Prosecutor King elected to proceed on the other two indictments charging Forbes with killing a policeman and with the murder of Grannison P. Koehler, an individual, speculation was rife on what effect the precedent would have on the cases of Loomie Cummins and Charles Mithoefer, held on identical indictments.

Forbes, it is alleged, was directly responsible for Koehler's death, having fired the shot that killed him, but county officials admittedly have hoped to convict the other two men of first degree murder on the indictment charging that the act was committed while a robbery was being perpetrated. Otherwise, if they did not actually shoot Koehler it was said, they could not be convicted on this count. What attitude King would take on these cases was not made known.

Twelve jurors had been tentatively seated when today's sessions of court began.

BOOTLEGGERS SOB AT COFFIN OF VICTIM

Shelby, Dec. 27.—Officers yesterday escorted to the bier of Robert Longly, who died from drinking poison liquor, Philip Weiganott and Lester Elston, who are alleged to have manufactured and sold the liquor that resulted in Longley's death.

The two men stood before the body of Longley for five minutes, sobbing all the time. Neither spoke a word. Officials said they forced the men to view the body as a "moral example."

Both men are being held on charges of murder.

Two other men who drank some of the same liquor as Longley are totally blind today, it is reported, and according to physicians, hopes for the recovery of their sight are slight.

Following a post-mortem Monday night Coroner LaBarre announced he would withhold his verdict as the cause of Longley's death until after state chemists at Columbus conduct an analysis of the organs.

MASONS AND FAMILIES GUESTS AT OPEN HOUSE

The Masonic open house New Years day will be open to Master Masons, their families, and sweethearts but not to the public. The arrangements are rounding out nicely, and the committees have arranged for some very pleasant surprises. The entire program will be full of pep. The program will begin at 7 o'clock.

POLICE HAVE NO CLUE IN DRY SLEUTH'S DEATH

Is Fifth Officer to Meet Death in Jefferson County

Knew of Impending Fate, Saying He Was Marked Man

Steubenville, Dec. 27.—No arrests have yet been made in connection with the killing of prohibition officer Charles T. "Dixie" Blinn, whose body was found in an alley here shortly before midnight Christmas. Although the entire city police force has been working almost continually on the case they did not have a single clue today as to the identity of the slayers.

Effort is being made to find some trace of a mysterious foreigner who was the last man seen with Blinn at 10 o'clock Monday night. Persons who reported seeing the officer in company with this man have been able to give only meager discriptions of him and none remembered of ever seeing him before the night of the beeen the leader of the party that took Blinn to his death after waiting shooting. He is believed to have for weeks to carry out a plan which the officer himself admitted was probably in force for he said several times that he was a marked man.

Blinn's body was removed to his home last night where funeral services will be held Thursday. He was a member of the Christian church.

Blinn is the fifth prohibition worker from Jefferson county to meet death. About 18 months ago Mike Veltry, leader of a similar force of operators was killed in an automobile and his body thrown along West Market street. Three other members of his force met similar fates, one at Yorkville, Ohio, one at Wierton, W. Va., and one near Washington, Pa.

The other member of Vedtry's force fled to the old country to escape a similar fate.

In each instance, the operators worked out of Justice's or Mayor's courts, receiving part of the costs and a percentage of the fines collected.

POULTRY SHOW HAS BIG LIST

More Than 500 Blooded Chickens Displayed in 21st Annual Exhibition Here.

The 21st annual chicken show opened in Newark Tuesday evening at the Old Lutheran church in South First street with the largest display of birds and the largest number of exhibitors which the local association has enjoyed in recent years. More than 500 chickens, in addition to some ducks and rabbits, entered by more than 100 exhibitors are in display.

Judging of the aggregation of prize winners will start Wednesday morning with D. D. Whittaker of Zanesville, one of the best known judges in the state, doing the work. The show will last the remainder of the week and will be open both during the day and during theevening.

Local exhibitors include Dr. W. L. Jackson, R. D. Metcalf, T. F. Dennis, Fletcher S. Scott, Dr. Cary Legge, U. F. Nichols, Dr. C. B. Keller, Ray Claggett and P. E. Anderson. Exhibitors have entered the show from all over the central part of the state and include those from Zanesville, Lancaster, Mt. Vernon, Cambridge, Crooksville, Stoutsville, Thornville and Glenford.

Superintendent Billy Osborne has complete charge of the arrangement and care of the birds and he predicts that the show will be one of the most successful in the history of the city.

Each evening a prize chicken will be given away free to the holder of the lucky number that evening. Each admission ticket will carry a number and a drawing is to be made each evening.

OHIO RIVER LOW.

Gallipoli, Dec. 27.—Owing to the lowest water at this season for 20 years, all government dams in the upper Ohio river were out of commission today. Navigation has been hazardous lately owing to the low stage of the river.

FIVE REASONS WHY YOU SHOULD MAKE THE KIDDIES CLOTHES

It saves goods and money. It assures comfort in the fit. It gives a chance for individuality and doubles the life of a gargarment.

Children's clothes are very simple and easy to make. Nowadays a little girl's frock is often just a matter of two seams, a little banding and a button.

You can make almost any little girl's dress, or boy's suit, in your own sewing room in half a day if you know how to go about the work.

Full directions for making children's clothes of all kinds—dresses, aprons, rompers, blouses, shirts, trousers, knickerbockers, and underwear—are contained in a litle book which this bureau has for free distribution

Send for your copy today. Fill out and return the attached coupon, enclosing two cents in stamps for return postage. Write your name and address clearly.

Frederic J. Haskin, Director,
The Newark Advocate,
Information Bureau,
Washington, D. C.

I enclose herewith two cents in stamps for return postage on a free copy of the Sewing Booklet.

PRINTERS PUT UP HOT SCRAP

But Heisey Crowd Is Able to Defeat Typos in Interesting Game — Ohios Lunch on Collegeans.

INDUSTRIAL LEAGUE.

Team.	Won.	Lost.	Pct.
Heisey	3	0	1000
Phi Delta Kappa	2	0	1000
Ohio Lunch	2	1	.667
B. and O.	1	1	.500
American Legion	1	1	.500
Printers	1	2	.333
Midland Shoe	0	2	.000
Business College	0	3	.000

Tonight: B. and O. vs. American Legion; Midland vs. Phi Delts.

In last nights Y. M. C. A. Industrial league the Printers gave Heiseys a regular scrap but the glass men got away with the game 33 to 20 and slipped into first place in the league standing, forcing the fraternity boys into second place. "Parky" and Thorp scored heavily for the type setters while Wilson corralled most of the points for the Diamond H squad.

The Business College made a desperate attempt to get the Ohio Lunch scalp and played them a good race until the last 8 minutes of play. Bright of the college team scored nearly all the points, and Baker of Ohio Lunch alone scored as many as his opponents. Pete's squad had good team work and found the hoop constantly, running up the score 37 to 18..

A big game is booked for tonight when B & O and American Legion meet for the first time.

LAST HONORS PAID MICHIGAN PLAYER

Ypsilanti, Mich., Dec. 27.—High officials of the state and the educational world, as well as gridiron stars of this and other years gathered here Tuesday to pay the last honors to Bernard Kirk, star football player of the University of Michigan, whose death resulted, Saturday, from an automobile accident The funeral was held yesterday at the home of his parents.

Acting as honorary pallbearers were Dr. Morion Leroy Burton, president of the University of Michigan; Governor Alex Groesbeck; James Murfin, regent of the university; Coach Fielding H. Yost, Congressman George P. Codd of Detroit and Congressman Earl O. Michener of Adrian.

Members of the 1922 Michigan football team were active pall bearers. Burial was in St. Johns Cemetery here.

Kirk had been chosen by many critics as all-american end.

BILLS CAPTURE VOLLEY BALL TITLE

Handicapped by the absence of George Smith, the Kirkmans went down to defeat in the T. T. league last night at the Y. M. C.A. and the Bills captured the championship in two straight games.

Coming from the bottom of the league to the top has swelled Bills squad so that now they challenge the winners of the M. W. F. league for the championship of the Y.

In the free-for-all contest both before and after the big battle last night, Cross, Oxley, Wyly and Van Tassell were easily the stars.

Wittenberg Quintet Is Practicing Hard

Springfield, Dec. 27.—Yuletide festivities did not last long for the Wittenberg college basketball players, for they are back in this city practicing hard for their coming battle Friday night with the fast Vanderbilt university team from Nashville, Tenn.

Vanderbilt claims to present the fastest and classiest cage outfit of the entire southland, but the Wittenbergers are determined that they are not to have their holiday vacation broken into for nothing.

By outpointing the University of Maine by the score of 43 28 here Friday night, the Wittenberg players showed greatly improved form over their two previous games when they were defeated by Ohio State, and won by a narrow margin from Cincinnati Gym.

PENN STATE HOLDS SECRET PRACTICE

Pasadena, Cal., Dec. 27.—The Penn State football players, here for a game New Year's with the University of Southern California, yesterday held their first secret practice since their arrival Sunday.

They worked out in the Rose Bowl, where the contest will be staged, both in the morning and afternoon.

The Trojans moved from Los Angeles last night after a final workout on their home grounds and today will divide use of the Rose Bowl field with the Nittany Lions.

At the present time Cuba is providing approximatel one-fourth of the world's supply of sugar and 60 per cent of the sugar consumed in the United States,

Evans ON BOXING

Five fistic titles changed hands during 1922. The year was featured by many pugilistic upsets.

Jack Britton holder of the welterweight championship, was beaten by Mickey Walker. It came as a great surprise, since only a few months before, Britton had decisively outpointed Lightweight Champion Benny Leonard, finally winning on a foul.

Greb Lynch

Joe Lynch regained the bantam title by defeating Johnny Buff in rather easy style. Buff, by the way, had a bad year of it, losing both the flyweight and bantam title, which he jointly held.

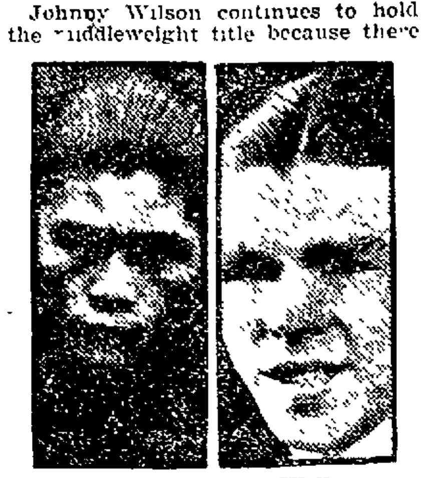
The new flyweight champion is Pancho Villa, the sensational Filipino boxer. Many of the experts are convinced that Villa is a better boy than Jimy Wilde, and is certain to defeat the great little English boxer if they ever meet. With such a victory would go the world title.

Harry Greb annexed the light heavyweight championship by his decisive victory over Gene Tunney. Greb had previously put a kink in the career of Tommy Gibbons by taking down the decision in a 15 round bout at Madison Square Garden. Greb's victory over Gibbons robbed the latter of a chance with Dempsey — arrangements for the bout having been practically completed.

Perhaps the biggest shock of the pugilistic upsets was the defeat of Georges Carpentier, idol of France, by Battling Siki—a comparative unknown.

The Siki match looked like a setup for Capentier. No one figured Siki had a chance, yet Carpentier was knocked out.

Johnny Wilson continues to hold the middleweight title because there are few, if any, states in which he can box.



Villa Walker

The effort of Lew Tendler to take the lightweight title from Benny Leonard resulted in a great fight, but Leonard was returned the winner by a fairly comfortable margin.

Jack Dempsey, heavyweight champion, is still the monarch of all he surveys. On no champion is the crown more secure than on the dome of fighting Jack.

Kilbane continues to dominate the featherweight division. He has done little or no fighting. Report has it that he is to meet Criqui, the European champion, on Decoration Day, 1923.

PRESBYTERIANS ARE SHUT OUT

Friday: W. End Lutheran vs. First Baptist and E. Main U. B. vs. First M. E.

Tuesday: First Baptist vs St. Pauls Lutheran and First M. E. vs. Neael Ave. M. E.

The Sunday School Basket Ball games showed some fast foot work and good team work in last night's play at the Y. M. C. A. gymnasium.

Hebron and Central Church of Christ each made a runaway score with their opponents. Central Church defeating First Presbyterian by a score of 31 to 0 while Hebron defeated the Lutherans 25 to 3.

Snider was the particular star on the Central team. Hebron played a very neat and fast game, and recieved the comment of being the fastest team yet to have played in the Sunday School League.

PIGGLY WIGGLY WILL PLAY DELAWARE PETS

With the double header at Hickey hall Thursday night between the Delaware Pets and the Piggly Wiggly, and a girls game between the Baptist team and the Kirkersville team. Manager Eugene Clark of the Piggly Wiggly team expects to finish the year 1922 with an offerin of the best brand of basketball possible.

The Piggly Wiggly team, composed of such players as Wilson, Cap Smith, Baker, Rouscoup, Stecker, Mayer and Stoltzenbach has not been defeated this season, the first since its organization. The Delaware Pets are well known throughout central Ohio and put up a first class brand of basketball.

Interest will center also in the girls game which is scheduled to start at 7:30. In the girls team league last year the Baptist team won the city championship. In the county the Kirkersville team won the county championship and this game Thursday will be the first in which the two teams have met

Tickets for the double header have been placed on sale at downtown sport headquarters and the advance sale indicates that a capacity house will witness the game

SCOTT HIGH TEAM MAKES SHORT STOP

Minneapolis, Dec. 27—After an eight-hour stop here, which included a brisk two-hour practice, the Scott high school football team of Toledo, coached by Dr William Neill, former Pennsylvania star, left Tuesday night for the Pacific Coast, where they will meet the Corvallis, Ore., high school team on New Year's day

Blonde hair of course is light, but that doesn't necessarily prove that dark hair is any heavier.

BOWLING

The Pastimes rolling in the Central States tournament Saturday night had a start of 1024, but found the going rough on the other shift of alleys, ending up with 2730. Hoban started the first game with 9 strikes but left up the 5-8-10 in the tenth, finishing with 263.

BASKET BALL QUIZ by Referee

UNSPORTMAN

If the referee give a decision that disgruntles a player who talks back to the official and conducts himself in an unsportsmanlike manner, what action can the referee take?

The referee has it in his power to give the other team the right to make a free throw for goal for such conduct.

INJURIES

If a team starts the game with seven players, five regulars and two substitutes, and before the game three players are so badly injured they can no longer continue is it possible for that team to complete the game with only four men in the field?

A team must start play with five men in the field, but if it has no substitutes to replace players forced to leave the game, it may continue with less than five players.

SPECTATORS

Who is responsible for the conduct of the spectators?

In basketball, like all other sports, the conduct of the spectators is always up to the management of the home team.

TIME OUT

On what plays does the referee take time out?

The referee shall order time out for a double foul, injuries to players or the making of substitutions

DRIED HAWAIIAN FRUITS

Dehydrated Hawaiian fruits having commercial possibilities were shown at the 1921 Maui fair by the federal agricultural experiment station of the territory. Products which have been found by the station to have especial merit, according to reports to the United States department of agriculture, are dehydrated mango, from which an excellent candied product can be obtained; dehydrated papaya, which mixed with lemon makes a cheap but delicious jam; and dehydrated guava, from which jelly can be made.

(By BILLY EVANS)

When one football expert pits himself against the world at large, his selections for an All-American team are sure to meet with much criticism.

Walter Camp has selected a very fine eleven as America's best, but it is certain to draw unkind words from many quarters. Critics in the middle west will pick the team to pieces because of the failure of several stars from that section to be placed.

Seven of Camp's first teams are from the east. Three are from the middle west and one for mthe coast. The south isn't given any representation.

The fact that eastern football did not demonstrate any great superiority over the other sections of the country, is not going to help justify the selection of seven eastern men.

The failure of Kirk to win a place will come a s a great surprise. Kirk is one of the best ends the "Big Ten" has produced in years It was felt certain that he would be selected. Most of the critics picked Kirk and Muller as the ends. Camp gives Taylor of Annapolis the preference over Kirk.

Placing McMillen of Illinois on the third team will not meet with the approval of many of the middle west critics. McMillen was the class of the western guards and it was believed that Camp would surely find a place for him on his first team.

Weller of Nebraska, a wonderful tackle, was entirely overlooked in Camp's rating. Sack of Pittsburgh, a sterling guard, failed to get mention.

John Thomas of Chicago is placed at fullback. Undoubtedly Camp saw Thomas in action against Princeton. Basing his opinion on that game, Thomas was bound to be placed on the first team. No football player in the history of the sport ever played a greater game than did Thomas against Princeton. He scored the three touchdowns made by Chicago.

Gulian of Brown was favored by most of the eastern critics for a guard on their All-American team. Camp places him on his third team.

The only action the south gets is Bomar at end and Barron at fullback on the second team. Red Roberts of Centre is entirely overlooked this year.

Camp places fullback Locke of Iowa at quarter. A majority of the "Big Ten" experts did the same thing in order to place John Thomas at full. However, whe Locke was considered as a fullback, all the western experts gave him preference over Thomas.

Camp has selected three mighty fine teams. However, it's the same old story when the opinion of one man is submitted against the football experts of the country. It can't be done and escape criticism.

Athletic Bodies To Hold Annual Meetings

New York, Dec. 27.—Three national organizations concerned with athletics will hold annual meetings in New York this week.

The physical research association meets today, the national collegiate athletic association on Thursday and the national amateur athletic federation gathers Friday for its first annual conference. Interest in the meeting of the latter group is centered upon the organization's plans to develop a nation wide compaign for participation in sports and games, a task accepted at the request of the war department.

To the Same Ten Men in this City

THREE weeks ago we gave you the startling information that the Chicago Evening American after raising its price to 3 cents against its fifty year old 2-cents competitor, had increased its circulation to a point where it has now the largest evening circulation of any newspaper published in Chicago.

Two weeks ago we told you how this was done and why it was possible. It was possible because the Chicago Evening American built a newspaper that appealed to the coming generation — to people under forty and those who think under forty.

We also told you our reasons for building this kind of a newspaper: First, because there are more people under forty than there are over forty. Second, because such minds are more open to new things. And third, because although such people *may have less, they spend more.*

In other words, we have built a newspaper for those who are coming into life, —not those who are going out. And the story of the Bayne family on this page illustrates the value of such circulation most sharply.

The Story of the Bayne Family

An Analysis of Life

WE PROMISED YOU a most intensely interesting story this week. Indeed what follows is the most interesting story in the world because it concerns five-sevenths of all humanity.

There were seven people in the Bayne family, the father, mother, and five children. They occupied a nine-room house in Chicago. They also lived in your city, by the way.

Their parents were a good example of average people. Mr. Bayne made a little money and saved a little. He invested carefully. He lived conservatively. Mrs. Bayne helped him. She was careful with her household accounts. She watched her share of the expenditures.

Their house was not just a house. It was a home. It was called the Bayne home. It was well furnished at an average cost. They had a piano, sewing machine, a phonograph, good average silverware which they had collected over a period of time. Mrs. Bayne had carefully chosen her table linens and bed linen. In short, the home was complete.

To finish the picture the Baynes read a conservative evening paper as they sat in the living room after dinner, and they made their careful necessary purchases from its columns.

This paper told of events in the republican and democratic parties, of conditions in China and Moscow and of the daily happenings of the city, all *very conservatively* to suit the conservative Baynes, and all in small headings with small type.

But that wasn't all of the picture in the Bayne home.

The Baynes had "five kids." Much like other kids—a boy of sixteen, who had finished high school and could not wait any longer to get into the swing of life, a pretty girl of fourteen who was beginning to watch other girls who put their hair up, a gangling girl of twelve, all legs and knees and elbows and a terrible bother generally, a young hopeful of eight, whom everybody said was going to be just like his dad, and a baby boy who was no longer a baby because he was five and almost going to school.

And that was the other side of the picture. The younger Baynes were not interested in what was going on in China and Moscow. They weren't excited by the closely printed reports of the city hall, and even the pretty one didn't get any thrill out of the corner of dress patterns on the 16th page (the girl's weren't wearing them that way, anyhow, anymore). So the elder conservative Baynes had their conservative evening paper pretty much to themselves, which was what they wanted after all.

Then one evening the oldest boy, came home from work with another newspaper. He had bought it from the newsstand because he wanted to be a business man like other business men, and this was the particular paper, which after two or three experiments, he had settled upon.

It was a different looking paper. The headings were big. Their expressions were vivid. He could get his teeth into what they said and visualize what was happening. And on the sports page there was not only a picture of his favorite football star, but there was a corking story of the game he was not able to see that day, and a half page picture of the most crucial play of the game snapped just after his favorite star had bucked the line for the winning touchdown. There he lay, with just his face showing and nine men on top of him—but he was over the last white line.

This was perhaps the most thrilling moment in the young Bayne's life. Incidentally, it was a mighty good piece of photographic news on the part of that newspaper. He read the story of that game almost without breathing. It was young America speaking to young America in its own language.

A little later, the pretty fourteen-year-old has looked over his shoulders as he turned the pages and has seen some great big stunning pictures of three of the "younger social set" that all the girls were talking about at school. And a moment later she has secured part of her brother's paper.

And after that there are two evening papers in that Bayne home. Soon it comes to be an accepted fact in the Bayne home as all things are. Young Bayne even begins to take an interest in the happening in Russia and Washington, as his imagination is touched by more vivid reports; the pretty girl starts to change her mother's ideas about dress making and the kids clamor for the funnies, which seem to be drawn by people who have the same kind of funny bone as they have.

But time slips along and the next time the Elder Baynes really think about their children is when they begin to discuss the fact that the boy has been staying out night after night, and the girl is going to parties although she is too young and they feel they ought to talk to them.

And while they are still cogitating upon this subject the boy shyly appears one evening with another girl and introduces her and the two elder Baynes look at each other and a little shiver goes through them, because this was their baby, and now they know by all the signs of life that he is no longer a baby, that the man-child has grown to be a man, that another Bayne home is soon to be started and that the years have finally turned their faces to the setting sun.

Time races along about this period of life; races terribly. Almost as it it were a moving picture, the children come up into life. They reach up, stretch up, grow up and almost in a twinkling the very babies seem to begin to primp and shave.

And they're not interested in the interests of these older Baynes. They do not dress the way the elder Baynes dressed. They do not dance the way they danced. They do not even read the paper that the elder Baynes have read for so many years. They have another paper, a more vigorous paper, a paper with pictures and life and zest in it, a paper that deals vigorously with vigorous subjects, a paper that flashes its news in headlines that you get at a glance—in short, a young American paper for young America.

The next important move in the life of the Bayne family is the taking of a five room house by the elder Baynes because the older boy and girl are married and have homes of their own now. Then almost before they know it, they have a little three-room apartment because two of the others are married and only the baby is left. And the last chapter finds the elder Baynes boarding in an apartment hotel or living in a small cottage because even the baby is married and the old ones are alone.

And now there are five Bayne homes instead of one. They haven't the complete outfits of the old Bayne residence. They haven't bought their silver yet, their furniture is rather makeshift because these homes are in the making and all the appurtenances and appliances that go toward the making of a home are also in the making—very often—the money making.

But there is hope and vigor and life in these five homes of the younger Baynes where there is only retrospect and memory in the little home that is left of the elder Baynes. These young homes are going to buy this and that—are going to build so and so, are going to have this appliance and add that comfort. In short, there is nothing in the world that these five young homes are not going to have and are not getting yearly to make them perfect homes.

Every evening in these five young homes there is a newspaper just as there was in the elder home.

But it isn't the old, conservative newspaper of the elder Baynes. It is the other newspaper that the younger Baynes had learned to read and follow. It is the paper that was vigorous with the sports and thoughts and activities and filled with the news of younger America, that younger American paper for younger Americans. From its news columns, they get their news and views of life. And from its advertising columns they buy their wants. And there is much to buy because their life is new and their wants are many.

Nor do they change their paper as they go along in years, any more than the elder Baynes changed theirs. The more vigorous life of this twentieth century appeals to them in their forties as much as it did in their twenties, just as the quieter life of the latter part of the nineteenth century appealed to the elder Baynes.

And so this is the story of the Bayne family. They live in Chicago, in Terre Haute, in your city and in every city in America and the general trend of their lives is always the same. One family going out, five families coming in; one family slowly getting rid of its load, five families buying into life with all the money and energy they can control.

And in Chicago, the younger American paper that appeals preponderently to the families of these new homes, "to the generations under forty and those who think under forty" is unquestionably the Chicago Evening American.

Certainly, there can be no doubt about buying the advertising columns of this kind of circulation for the movement of *any* kind of merchandise.

Please remember that twenty-four hours after you write or wire us, one of our merchandisers who knows Chicago and the Chicago market — not merely a solicitor — can be at your desk.

A Bible Thought for Today

SAFEGUARDED:—He shall give his angels charge over thee, to keep thee in all thy ways.—Psalm 91 11

THE DANGERS OF SUBSIDIES.

It was made perfectly clear during the recent political campaign that the mass of the voters are hostile to ship subsidies, and are opposed to paying bonuses to make private industries profitable.

Nothwithsanding this sentiment, the Republican administration goes ahead blindly with its plan for subsidizing ships. It plans to spend most of the short session of Congress in putting through a bill which the people have shown they do not want.

If ships prove unprofitable, and it is necessary to grant them funds out of the public treasury to make them pay, why not subsidize the farmers also? They too are having an unprofitable time of it. The country needs to have them prosperous just as much as it needs to have ships operated. If then the government is going to make a gift to shipowners to induce them to operate their vessels, why not make a gift to farmers to induce them to operate their farms?

If this principle is once established of direct gifts out of the treasury to unprofitable lines of business, there is no telling what it will lead to. Very likely the railroads would likewise demand a subsidy. Many of them claim they are unprofitable now, and they might feel just as entitled to it as the ship lines. It is a dangerous principle to introduce.

The thing to do would seem to be to strive for the most efficient management of the ships now operated by the government, in the hope that the loss can be cut down to a point equal or below what a subsidy would cost.

It would seem as if by advertising and good managment, many of these ships owned by the government iould eventually be made to pay. In that case they could be sold to private owners, and thus let the government out of the business without having to establish the principle of aid to private enterprise.

NEW IDEAS

It is a different matter to draw the golden mean between conservatism and radicalism.

Many people begin to hurrah for every new idea suggested for political and economic reform. The theoretical arguments for such innovations look plausible to them, and they never think of possible objections They agitate violently for such ideas, and condemn politicians and parties if their proposals are not promptly accepted.

Other people go to the opposite extreme. They regard the world as a pretty comfortable place as it is, and view new ideas with hostility.

Both attitudes are wrong. The country is full of evils that need reform. People must examine suggestions with a hopeful and open mind. But before rushing to the support of every new idea, it is well to ask how they have worked in practice, and how they fit in with ordinary human nature.

If the Democrats in Congress keep the Republicans from doing anything, and the Republicans keep the Democrats from doing anything, everybody will conclude that the session is a great success.

It is complained that the people are kicking over the traces. This usually occurs when the hired man failed to put the harness on right.

The spoils system is said to cause a loss of $700,000 000 in government work, but it takes care of a large number of lame ducks.

There may not be any surplus of women in this country, but those we have manage to keep in the public eye.

Some complaint in Ohio about automobile tail lights, but the light heads of the speeders make more trouble.

Being urged to become self reliant, a lot of children think they know more than their parents.

The kids are complaining that they have to celebrate Education week all through the year.

A LITTLE TALK ON THRIFT

(By S. W. STRAUSS)
President American Society for Thrift.

People often imagine that economy means a state of bondage, and that it restricts them in the full enjoyment of life's advantages and blessings. On the contrary economy and thrift open a direct road to independence and liberty.

Independence through thrift would be a good motto to keep constantly in mind. "Economy," wrote Dr Samuel Johnson, "is the parent of integrity, of liberty and ease and the beauteous sister of temperance, of cheerfulness and health."

The value and satisfaction of liberty and independence, so generally unrecognized in the bloom and vigor of youth, looms larger as the years advance and we begin to crave a freedom from the servitude which always goes hand in hand with poverty and dependence upon others.

The ways of extravagance and waste, which appear so inviting at first, soon begin to narrow down and present the terrifying prospect of penury. But it is possible to avoid this gloomy outlook in the afternoon of life.

Systematic economy, and precaution against waste and extravagance in the days of prosperity, will prevent this unhappy condition in later years.

It is not necessary that one should have had the advantages of a good education or even possess greater opportunities than other persons in order to achieve this freedom. Waste, in fact, is sometimes the result of too much imaginary independence among those who are fortunate at the beginning of life. Great ability to earn, and rapid advancement, sometimes destroy the true perception of happiness and success.

Do not contemplate thrift as a sacrifice of personal liberty. Its consistent and regular practice provides the only way one can attain genuine liberty and a complete fulfillment of the ultimate objects of life.

FIGHTING SEALS.

(Cleveland Plain Dealer)

The death rate from tuberculosis in Ohio has fallen from [illegible] per 100,000 population in eleven years. The educational campaign of the National Tuberculosis association to combat the disease was begun in 1904 and since that time the death rate for the country as a whole has been cut in half. Had the 1911 rate prevailed in Ohio last year there would have been 8,700 instead of 5,277 deaths from tuberculosis in this state.

One of the most important agencies in this fight of society against its insidious enemy, the white plague has been the little Christmas seal which the people of this and other states are buying by the millions in this holiday season. The message of the seal is one of hopefulness to thousands who either have the disease and may be cured or who, except for the mission of the seal, might become its victims.

Over twenty millions have been raised through Christmas seals to fight tuberculosis. Twenty billion seals are to be sold at this holiday season. Have you bought your share of them?

THE TIDE TURNS.

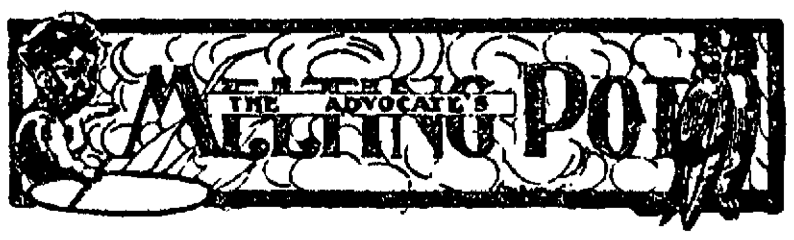
In spite of all precautions grade-crossing accidents are multiplying rapidly, and the loss of life is appalling. People seem regardless of danger, or becomes so occupied in conversation they are unconscious of it. The chief of the accident-claim department of a large road told me of one such which occurred recently.

A long freight train was nearing a country highway at not over 15 miles an hour, over a level track. It was a bright sunny day. The locomotive and several cars had already passed over the crossing when the conductor and the brakeman looking out of the caboose window, saw an open car approaching at rapid speed and fully a half mile away. The highway was also level and there was nothing whatever to obstruct the view from either automobile or train. The auto approached without in the least slackening its speed, and struck the second freight car from the rear end of the train. The auto was a complete wreck but its four male occupants escaped permanent injuries. Their explanation was they underestimated the length and speed of the freight train and didn't think it was worth while to slacken speed, much less stop, as they expected to shoot across just behind the caboose.

The railroads have borne without much complaint the burden of such accidents all these years but the tremendous increase in the number of cars and autos and in the carelessness of their drivers has reached a point where they may be expected to react. In other words, the worm is beginning to turn.

We have evidence of this in a recent court decision, where a driver sued the Pennsylvania railroad for damages to his car which plainly resulted from his having carelessly run into a fast passenger train. The railroad sued the man for damage to its gates, which were proved to be down and through which the car crashed because its driver failed to reduce his speed.

The case is interesting as the first of its kind and as the prospect is that other courts will likely follow the same course it evidently behooves the driver of an auto to stop, look, and listen and have his car under control before he decides to run down the cannon ball flier or even a way freight.—H. H. Windsor in January Popular Mechanics Magazine, [illegible] page



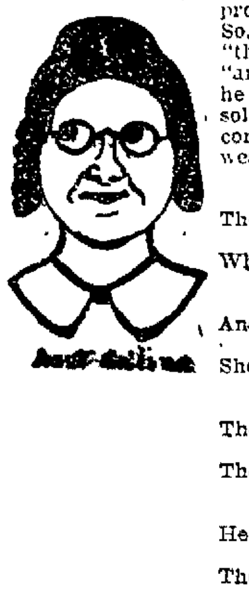
THE ADVOCATE'S MELTING POT

Light, whether it be material or moral, is the best reformer; for it prevents those disorders which other remedies sometimes cure, but sometimes confirm.—Colton.

Her Bluff.

She often wishes she were dead,
Does Araminta Miller;
She'd not, though, you can bet your head,
Let anybody kill her.

Just as a Precaution.



Aunt Ca'line

Aunt Ca'line says—Tite Wadd's wife went up to Newark last weak an' got Dr. Sedgwick to make her a knew set o' teeth an' she's turrible proud o' them, a smiling more'n what she has for years. So, t'other nite Tite says to her, "Mandy," he says, "them teeth o' your'n cost a sight o' money," says he "an' I want you should be vurry keerful o' them," he says." "So don't talk no more'n jest what is absolute necessary," says he, "for your tongue a-working constant agin 'em is bound to cause more or less wear," he says. Mandy bean a powerful talker.

Domestic Tragedies.

The bride, she made a nice meat pie
Then in the parlor sat,
Whereat the pie was eaten by
Her maltese cat.

And then the bride began to cry,
But hubby told her that
She needn't cry, he'd go and buy
Another cat.

The bride, she made a tin of rolls
Upon the Vassar plan;
They were as hard as hardest coal. –
Alas, poor man!

He tossed her poodle, on the sly
That geologic food;
The dog did die, he had to buy
Another pood.
—Louisville Courie[illegible]

She made another pie and fed
If to her husband, and—
When he expired she calmly said,
"He's dead! My land."

I'll waste no time in vain regret
For this thing that I've done;
I just shall simply have to get
Another one."
—Newark A[illegible]

In less time than it takes to tell
She hooked one of those jays
Who sure was posted none too well,
On woman's ways.

And then, presumably to please,
She hustled as before;
Made him an angel-food, now she's
Alone once more.
—I. G.

Easy.

I like to live in "A House by the Road,"
But one thing's certain as the dickens;
That every machine that goes by with a load
Seems bound to kill off all my chickens.
—Chartie Leedy in Youngstown Telegram.

If flivvers are killing your chickens that way,
You don't have to hire some scrapers;
But hire you a flapper or two by the day;
Flivvers always slow up for the flappers.
—Judd Lewis in Houston Chronicle.

Well, I know a better scheme than that,
Commence to raise rhinoceroses;
They'll not run over them, bet your hat,
But steer round them all with their buses

Did You Know

That there are about one hundred species of mosquitoes? To the eight or ten species found in England no new ones have been added for more than fifty years. No distinctly tropical species has even been found in England, but one of the Well known British species has been found in Mexico.

Answers To Your Questions.

(Any reader can get the answer to any question by writing the Advocate information bureau, Frederic J. Haskin, director, Washington, D. C. This offer applies strictly to information. The bureau cannot give advice on legal, medical and financial matters. It does not attempt to settle domestic troubles, nor to undertake exhaustive research on any subject. Write your question plainly and briefly. Give full name and address and enclose two cents in stamps for return postage. All replies are sent direct to the inquirer.)

Q. Is it true that a Christmas dance is performed in a church in Spain? J. H. K.

A. One beautiful feature of the "Mesa de Gallo" in the great Cathdral of Sevilie is a strange mystical dance of "interweaving of steps" by the choir boys, who thus dance before the high altar. This reverent dance which is given but twice a year is marked by the chanting of the choir boys, who carry tall lighted candles as they cross and re-cross up and down the wide choir steps. One of the occasions is the celebration of midnight mass on Christmas eve.

Q. Is a magnolia sometimes called a tulip tree? A. E. T.

A. The tulip tree is one of the magnolia family

Q. What metal is the heaviest? F. B. A.

A. The platinum group of minerals is the heaviest. Native iridium heads the list.

Q. Was Senator Sherman really the author of the anti-trust law that bears his name? D. C. A.

A. Senator Sherman originally proposed and outlined the Sherman law, but it was perfected by the judiciary committee of the United States senate, and there has always been controversy over the question of the authorship of the law. Senator Hoar, a year before his death, claimed to have been the author. Senator Edmunds, chairman of the committee, declared that nearly every member of the committee participated in the work of preparing the bill.

Q. Are some of a horse's muscles classed as speed muscles and some as strength muscles? E. J. T.

A. The law framed by E. J. Marey and known as Marey's law, is "The muscles of speed in the horse are long and slender, and those of strength short and thick."

Q. Who invented the first navigating instrument? J. F.

A. To the Greek, Anaximander of Miletus, is attributed this invention. The following account is given: "Mariners had observed that the farther north they went the higher the Pole star rose in the heavens, and Anaximander is reputed to have invented an arrangement of 2 sticks hinged together, so that when one was held horizontally and the other pointed to the Pole star, the angle they made would indicate how far north the observer was."

Q. Did the present King of England have an older brother? M. K.

A. The present king had an older brother—Prince Albert Victor, Duke of Clarence, who died on January 14, 1892. At that time George was made Duke of York. When his father became King in 1901, he was given the title Duke of Cornwall, and shortly afterward he was created Prince of Wales. Upon the death of Edward VII, in 1910, he succeeded to the throne as George V.

Q. Is "truffle-hound" a slang phrase? P. F.

A. In France truffles are located and dug out of the ground with the aid of dogs and pigs. The latter are commonly used in Perigord, their rooting instincts and fine nose for scent being turned to account. A trained sow will sniff the peculiar pervasive odor exhaled by the ripe tuber and will make directly for it, either laying it bare or uprooting it, to be rewarded with an acorn or chestnut. Dogs are used in the same manner, especially by poachers.

Q. Who said "No man e'er felt the halter draw, with good opinion of the law?" M. E.

A. The quotation is from "McFingal" a burlesque epic, written by John Trumbull, American jurist and poet, in 1782.

MARRIED WOMEN DON'T WORK FOR LUXURIES ONLY

Women's Bureau Make Survey of Problem in New Jersey Town

Necessity Forces Many Mothers Into Employment Records Disclose

(By FREDERIC J. HASKIN)

Washington, D. C., Dec. 27—A ray of light has just been shed on some widely discussed questions about the woman worker. It is often asserted that a large proportion of married women now work in stores and offices and that many of them do so merely in order to buy luxuries. The criticism is made that these women whose husbands could support them are holding positions needed by men and single girls.

The persons making a statement of this sort always glibly quotes at least one case of a wife who works so that she can spend her vacation at an expensive resort and who is brought to work by her husband in a palatial car. But these outstanding cases—what percentage of married women do they really represent?

And, to take another controversy, do the majority of working women spend their money on themselves, or do they have dependents and responsibilities as it is assumed that the majority of men workers have?

The minimum wage is supposed to give a woman a living wage for herself alone. No thought is given to the possibility of the working girls having dependents. And yet, is it economically just as matters are today to assume that she has no one but herself to take care of, and that therefore her thin pay envelope really equals a man's fat one?

These questions are argued back and forth, but facts have always been hard to locate. There has never been a national table showing the personal and family liabilities and assets of men workers, and no such table of women workers has been made in the past 20 years, so that the controversies about women workers cannot be finally settled at present.

But just to show what the tendency is, the woman's bureau of the department of labor has made a study of the family status of women breadwinners in one representative city, Passaic, New Jersey.

The women's bureau went to the census bureau and obtained permission to use the punch cards of Passaic working women for statistical study. This was a departure. Ordinarily the census records are used only by the census bureau. The bureau collects an enormous mass of valuable information, and from all of this information it sifts out certain statistical facts and makes up tables that will be of most importance to the country. Funds are limited and time is limited. The employees work at high speed to make up tables of manufactures, population, crime, occupations, an so on. Then the bulk of the material is left in the census files.

These files contain data on the economic status of families that would be of great value to all sorts of social welfare organizations, to city boards and local governments. But the census bureau has no funds alloted for publishing the statistics. The women's bureau, however, being a section of the labor department, made an arrangement to have access to the records of one city, with interesting results.

Passaic was chosen because it was large enough for statistics to be illuminating, and yet it was not too large for the bureau to study with the funds available.

Nearly 10,000 women work for wages in Passaic. This means that nearly half of the women in that city, and probably in many other cities, are wage earners. What is more significant of the trend of times, four-fifths of the women work outside of the home.

If you think back only a few generations to the time when both father and mother worked about the home, doing the work of the butcher, baker, tailor, carpenter, farmer, and cook, you can realize that women are only a few decades behind men in leaving the home to make a living. A more complex civilization soon took the men out of the home to run machinery and to sit at office desks The exact causes that are taking the women away from the kitchens and nurseries, are less obvious. That they are being drawn away, however, in larger and larger numbers is indicated by the statistics.

Thus it is shown that one-half of the women workers in Passaic are or have been married. The report further shows that 90 per cent of the 4,013 married women workers have husbands who are employed. What is more, nearly three-fourths of the women who are or have been married have children to care for, and while in most cases the families are small, the children are young. More than half of the working mothers of Passaic leave children under five years of age at home every day or carry them along to work.

The women's bureau calls attention to its discovery that "it was not the widowed mothers nor other women with disrupted marital relations who were winning bread apparently at the expense of the care of young children, but the married women living with bread-winning husbands." The revelation, the report says, makes a strong urge for further information.

The bureau report says further: "It is of manifest importance to know why so large a group of women with home responsibilities should be at work when the usual family providers are in evidence. Rarely are the wages of fathers sufficient to keep grown unmarried daughters from going into industry as breadwinners, but that the wife and mother should go out to work while the husband and father is a breadwinner challenges attention. Is it because she must, or because she 'wants to'?"

But after raising this interesting question the bureau report calmly concludes that "without information on family income, which it is not possible to secure from census schedules, a definite answer to this question cannot be given."

The work done by the women would indicate that necessity rather than a desire for a career guides the woman workers of Passaic. It is a manufacturing town and the majority of the women are employed at spinning and weaving in the textile mills, at running machines in handkerchief factories or at productive work in other manufacturing plants. Women do not ordinarily leave babies under five years for such work unless under financial stress.

How the mothers dispose of their children is not, of course, shown by the census records, but the woman's bureau made a survey of 522 representative homes containing working mothers with small children to find out how they provide for their babies during working hours Of these mothers, 107 burn the candle at both ends, working in factories or other places at night in order to be at home in the day to care for the children. In 118 families the children, all under 14 years, look out for one another, while 22 mothers keep store with babies tagging at their heels.

Except for a few families where a daughter, mother, or neighbor helps with the housework, all of the employed mothers cook, clean and wash for the families after "working hours."

While the women's bureau does not draw any general conclusions, the married woman who works for luxuries does not seem to be in evidence in Passaic. Out of some 10,000 working women only 1,100 hold clerical positions, and less than 500 are in professional or managerial service.

So far as unmarried working women are concerned the women's bureau found that "15 per cent were either sole breadwinners, or one of two, or one of three or more breadwinners in families having no male breadwinners living in the family. More than 30 per cent of the single breadwinners in Passaic were boarding or lodging, living with employers or with relatives, or were domiciled in institutions. In other words, nearly half of the single women breadwinners apparently had sharply defined responsibilities for personal or for family support."

The atom isn't the smallest thing. There is the American tourist in Europe who curries favor by knocking his own country.—San Francisco Chronicle.

IT WAS

There was an explosion in the powder mill and the proprietor hurried over to ascertain the damage.

"How in the world did it happen?" he asked the foreman of the mill as he viewed the wreck. "Who was to blame?"

"Well, you see, sir," replied the foreman. "It was this way. Bill went into the mixing room and inadvertently struck a match. He—"

"Struck a match!" exclaimed the proprietor in amazement. "I should have thought that was the last thing on earth he would do."

"It was, sir," replied the foreman, sadly.—London Telegraph.

A CAREFUL PATIENT

A woman whose throat had troubled her for a long time grew impatient at the slow progress she was making and made complaint to her doctor.

"Madam," said the physician, "I can never cure you of this throat trouble unless you stop talking and give your throat a complete rest."

"But, doctor," objected his patient. "I'm very careful what I say. I never use harsh language, or anything of that kind."—Philadelphia Ledger.

THE WOMAN'S PAGE

WEEK'S CALENDAR

Wednesday

The Order of Eastern Star, Wednesday has installation and banquet at Masonic Temple.

The Women's Relief Corps meets at the Memorial Hall.

Mrs. Fred Mosteller is hostess to the Wednesday Luncheon club at the Country club.

The Country club members will entertain with a dancing party.

Thursday.

The T. C. club entertains with a dancing party at the Masonic Temple.

Friday.

Mrs. Leo Davis is hostess to the Trinity Sewing club.

The Masonic Social club entertains with a dinner dance.

Mrs. W. W. Alspach is hostess to the members of the Coterie club.

Hetuck Chapter Daughters of the American Revolution is entertained at the home of Mrs. John Rugg.

The marriage of Miss Mary Elizabeth Fuller and Mr. Charles Bumer was solemnized at eleven o'clock this morning at the home of the bride's parents, Mr. and Mrs. Charles W. Fuller in West Church street. The Rev. L. P. Franklin, rector of Trinity Episcopal church read the ceremony in the presence of members of the immediate families.

Miss Helen Fuller, sister of the bride and Mr. Edward Rees, of Girard, were the attendants.

The bride's gown of white satin and Duchess lace, and her veil, were those worn by her mother 31 years ago. The bridal bouquet was of white roses and valley lilies. The maid of honor wore otter canton crepe and carried sunburst roses. Mrs. John H. Franklin, cousin of the bride played Lohengrin wedding march.

Mrs. Bumer is the daughter of Mr. and Mrs. Charles W. Fuller of West Church street, a graduate of Denison university and a member of the Chi Psi Delta sorority.

Mr. Bumer is the son of Mr. and Mrs. Charles Bumer of Girard. He is a Denison University and Harvard graduate and a member of the Kappi Sigma fraternity. At present he is with the department of mathematics and mechanics of Ohio State University.

At six o'clock Saturday evening in the parsonage of the Hanover M. E. church the marriage of Miss Bernice Hoyt and Mr. Darwin W. Galbraith was solemnized, the pastor Rev. William H. Koppert officiting. The bride wore a suit of navy blue velour. They were attended by Miss Helen Smith and Mr. Merrill Galbraith.

Mrs. Galbraith is the daughter of Mr. and Mrs. Walter Hoyt of near Hanover and is employed as stenographer and bookkeeper by the Commonwealth Power company in the Trust building.

Mr. Galbraith is the son of Mr. and Mrs. William Galbraith of Nashport and is a student in vocational training in Chillicothe.

Tuesday evening at seven o'clock the Alpha Sigma Chi fraternity entertained the members with the annual stag banquet at the Elks. An eight course dinner was served and Eddie Ewald's orchestra arranged the program, which was featured by the Elks Glee club under the direction of Professor C. W. Klopp. Those present were Messrs. H. J. Murphy, Harry Rossell. Aaron Swartz, E. T. Tyrer, William Cook, N. W. Cook. P. E. Taylor, Charles Warner, Bob Hamilton, Joseph W. Hawkins. P. W. Jones. Carl Pryor, Sam Holler, George Pfeffer, George Beatty, William Pickering, Gilbert Stewart, Nelson D. Metz, Sol Schonberg, Walter Nolan, Carl Cunningham, Paul S. Krug, Donald Jordan, Raymond Hull, Virgil Foster, Thomas Sullivan, Balcolm Wolfe, Cyril Zentmeyer, Warren Whitney, Wendell Postle, C. J. Ankele, Bentley Sook, Harry G. Wells, Harold Alspach and Eugene Bader.

The following dancers were entertained Christmas night at the dancing party given by the Alpha Pi fraternity at the Masonic Temple from nine to one o'clock. It was a novelty dance and the music was arranged by the Reichert-Wyeth orchestra.

Mr. and Mrs. Phillip Puckett, Mr. and Mrs. Phil Wickham, Mr. and Mrs. K. M. Jackson, Mr. and Mrs. Oscar Juch.

Misses Betty Bishop, Thelma Kline, Grace Mattingly, Thelma Hupp, Florence Walton, Mary Windle, Olive Hines, Helen Burkett, Ruth Spickler, Thelma Deedham, Adeline Renson, Dot Driscoll, Peggy Bauett, Julia Snyder, Catherine Crawmer, Dorothy Orr, Margaret Davis, Leona Vanatta, Francis Stork, Ruth Hill, Marie Trickey, Kathryne Hill, Mary Brady, Esther Rickert, Marion Montgomery, Neva Hulshizer, Hazel Gosnell, Ruby Gosnell, Geneva Halderman, Bernice Geisiheimer, Dot Montgomery, Elen O'Neill, Lela Hendron, Eva Wilson, Kathryne Livingston, Rosanna Floyd, Mary Hohl, Hilda Smith, Betty Pinkerton, Dorothy Friel, Hazel Konkle, Evlynn Shaffer, Esther Wolf, Dorothy Anderson, Martha Booth, Francis Orwig, Helen Fitzsimmons, Ann Rogers, Marjory Carr; Regina Dwyer, Gerald Koegel, Francis McGee, Mary Belt, Mary McLain, Nelle Flory, Edna Norris, Kathryne McGonagle, Mary Diebold Grace Stickle, Eula Hess, Florence Cawell, Sara Beaumont, Jeanne Thompson, Sarah Hamilton, Ruth Baird, Mable Wells, Mary Nutter, Gladies Boring, Dorothy Kuster, Florence Kindal, Rheba Bailey, Freda Burton, Martha Morgan Edith Weeter, Pauline Pierce, Frances Fitzgibbon.

Messers Fred Heil, Charles Heil, Archie Goodwin, Paul Taylor, Robert Owens, Oscar Buxton, Edgar Porter, Warren Whitney, Russel Campbell. Kenneth Hill, Clyde Coss, Karl Koveleski, Ralph Stowell, David Allen, John Hornby, Walter Schlosser, Gerald Goggs, Swisher Marshall, N. W. Lewis, Russell Wyeth, Francis Sanders, William Wilson, Harold Welker, A. W. Hutchison, F. D. Lennington, Harold Holland, H. O. Conn, Ralph Richardson, Smut Howard. Earl Montgomery, Joe Criss, Ben Perkins, Paul Loar, Fritz Drake, James Cook, Paul Fairall, Ray Mort, Vernon Christman, Rex Clark, Tom Hundley, Forrest Loveless, Larry Love, Carl Sommers, Bill Pinkerton, Ira Richmer, Otto Odendahl. Harold Wolf, Ruel Cochran, Harlen Taylor, Smith Coen, Dick Walker. Al. Henry, Kenneth Stewart, Ford Maxwell, John Hiskey, Walter De-France Ray Shaw, Bill Schopen, Bill Gilmore, Luther Shire, Lawerence Bonham, Walter Evans, Milford Smoke. John Fitzgibbon. Isadore Rothstein, Ray Davis, Roderick Wheeler, Raymond Petrey. Clyde Daugherty, H. W. Hulshizer. Fritz McElroy, C. R Geidenberger George Marriott, William Spickler, Vernon Jones.

Miss Gladys Boring entertained a few of her friends at six o'clock dinner Christmas day. Those present were: Misses Rheba Baillie, Luola Demming, Martha Morgan. and Gladys Boring; Messrs. Luther Shira, Clayton Wolfe, Walter Orr, Ray Shaw, and Mr. and Mrs. B. A. Boring.

Mr. and Mrs. J. P. Lamb, Jr., delightfully entertained with a family dinner at their home in Hoover street, Christmas day. Those present were Mr. and Mrs. J. P. Lamb, Sr., Mr. and Mrs. Karl F. Schultz and children, John Langdon. Virginia and Karl Robert, and Jack Lamb, Jr.

The Ladies Aid society of the East Main Street M. E. church, will be entertained at the home of Mrs. E. V. Saylor in 56 Penney avenue, Thursday afternoon at two o'clock.

Misses Elizabeth and Mary Kibler are entertaining with a bridge party and a miscellaneous shower this afternoon at their home in the Granville road for the pleasure of Miss Harriet Ralph, whose wedding to Mr. James Leonard takes place January fourth. Christmas greens were used in the decorations and the following are the guests: Misses Harriet Ralph, Laura Beggs, Helen Norpell, Thelma Mazey, Virginia Warner. Mary Montgomery, Ruth Hamilton, Katherine Hamilton, Elenor Johnson, Martha Grace Miller, Virginia Miller, Angela Kennedy, Dorothy Swisher, Sue Walker, Mrs. Robert Crandall and Mrs. Robert Hamilton.

The Young Women's Catholic club is entertaining with a card party at the club rooms Thursday evening, for the members and their friends.

Announcement is made of the marriage of Miss Mabel Loar of Hanover and Mr. Merril V. Stone. The wedding was solemnized at high noon Christmas day at the home of the bride's parents, and twenty guests were present.

The wedding service was read by Rev. J. Vernon Stone, father of the bride groom, and Rev. Mr. Koppert pastor of the Hanover M. E. church.

The attendants were Miss Martha Booth and Mr. Walter Young of Zanesville, who is a fraternity brother of the bridegroom.

The bride wore a frock of golden brown chinchilla satin. The bridesmaid was gowned in blue Canton crepe. Mr. and Mrs. Stone left on a wedding trip. The bridegroom is the son of Rev. and Mrs. J. V. Stone of Cedar street, and has been a student at Ohio Wesleyan.

The wedding of Miss Lenora Dustheimer and Mr. Carl Geidenberger was solemnized Sunday morning at ten o'clock at the home of Rev. H. E. Dunmire, Hancock and Williams street.

The bride is the daughter of Mr. and Mrs. Loren Dustheimer in Franklin township and the bridegroom is the son of Mr. and Mrs. William Geidenberger of National drive. After a short wedding trip they will be at home on the Loren Dustheimer farm.

The Knights of Columbus are entertaining with a dancing party Friday evening at the Elks.

Rev. W. W. Johnson, pastor of the West Side Church of Christ officiated at the marriage of Miss Ruth Holler and Mr. Thomas Hayes, Saturday afternoon at three o'clock at the parsonage of the church. Mr. and Mrs. Hayes will reside in Newark, the bridegroom being a fireman at the East Newark city department.

Mr. and Mrs. L. J. Donaldson of 107 Stevens street announce the marriage of their daughter Hazel Elenor to Mr. Lester Loughman, son of Mr. and Mrs. C. B. Loughman of Oakwood avenue.

The marriage took place in Detroit Mich., Sunday, December twenty-fourth at high noon. Rev. Mr. Durr, read the ring ceremony. The marriage was witnessed by Mr, Wilbert Harden.

A wedding dinner was served at the home of Mr. and Mrs. Wilbert Harden, the latter a sister of Mr. Loughman.

The bridegroom is employed at the Henry Ford plant. They will reside in 356 Gevena avenue, Highland Park. Mich.

Several social events were arranged including a miscelleneous shower at the home of Mr. and Mrs. Ellis Parlet in Bolton avenue, Tuesday evening and a farewell party at the home of the bride's parents Friday evening.

COAT HAS TRAIN.

One of the most gorgeous fur coats ever designed has just been completed for a motion picture actress. It is made of Russian ermine lined with burnt orange velvet appliqued with silver. A long, double train is attached at the waistline.

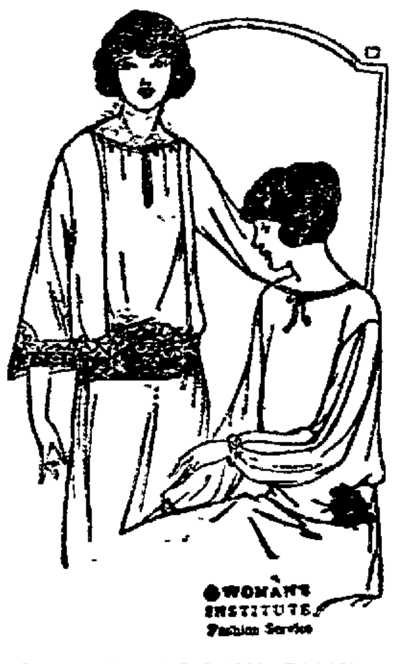
Attractive Blouses of Two Materials in Vogue



By MARY BROOKS PICKEN

HEAVY Canton crêpe with a heavy Georgette crêpe or with two thicknesses of Georgette is used in blouses for daytime wear. Duvetyn and satin with bead and embroidery trimming make other good combinations, especially the duvetyn when it corresponds with the suit or skirt.

The progress made by dress artists is more evident in the blouse of today than in any other outer garment. The new blouse is smart and becoming and as useful and practical as 'tis convenient.

The blouse at the left is of heavy novelty crêpe with side waist portions, sleeve trimming and waist-line finish of Canton crêpe. The color is navy and the embroidery floss is dark navy with beads of red for definite color.

The blouse at the right is of dark brown duvetyn with tan crêpe satin sleeves and tan, brown, and gold embroidery.

ONE COLOR FOR ENTIRE COSTUME

The larger New York shops report a tendency for well-dressad women to choose underwear that not only corresponds in line to their outer garment but that corresponds in color as well.

To accompany evening gowns, beside the usual white and pink, there are shades of orange, American beauty, cerise, lavender, blue and green. Many sets are elaborately trimmed with dyed laces.

Black underwear is shown as well as brown and navy blue for daytime wear with dark frocks. Knee-length bloomers are taking the place of those of ankle-length to make way for the recently returned petticoat or the new costume slip.

SKIRT LENGTHS

Short jackets of brown caracul are effectively worn with brown velvet or duvetyn one-piece dresses. A narrow, straight skirt, escaping the ground by from five to eight inches gives the best line with the short fur coat.

The One-Man Woman

(By RUTH AGNES ABELING.)

CHAPTER 13
A WOMAN'S VOICE

"I went to sleep last night," said Kate Ward, "with nothing unusual on my mind. I was not disturbed, and think I must have slept rather well—but the morning when I awakened I felt as if I had not slept at all but had spent a night of weeping.

"It seemed as if some terrible thing had happened," there was a trace of emotion in her voice, "and as if it had taken a terrific hold on me. I hadn't shed a tear, but I had the feeling of having cried for hours.

"And then—" she hesitated.

"Yes, Katie?" Justin's voice was low.

"And then—stranger than anything else—I thought I heard a voice. A woman's voice. It said—" Kate stopped again.

"It said?" Justin repeated.

"It seemed to me, father, that it said something about a trunk! And that is why I asked you before!" The words were coming rapidly.

"I'm sure there's something about a trunk that would mean something to us—or—or do you suppose I'm going mad? I know I heard it—or it was somehow impressed on my mind so that I have the sense of having heard it.

"I can't be going mad—can I? Can I, father?"

"No child—you're not going mad."

Justin Parsons was silent for a space.

When he spoke he startled Kate.

"I think, Katie," the words came slowly, "you had better go to see Alice. I don't know why particularly. I don't know that there is anything you can or should do, but I have the feeling that it would be well for you just to know the surroundings of that girl's life.

"Then when you've seen it," he continued, "come back to me and we'll talk this thing over. There should be a happy solution for both of you. And I think you need that trip."

Kate didn't question Justin's wisdom. She packed her traveling bag and was soon on her way to the little station when a train would take her to Sullivan, Ind. Thence she might go on the interurban to Terre Haute and Alice.

While a group of railroaders and oilmen hurried out of the local train bringing them from Robinson, Ill., that noon, Kate waited. Then she followed her black bag which the conductor swung up the steps and found herself a seat in the coach.

The train crawled on.

It stopped at Riverton, a group of unpainted shacks huddled together on the banks of the Wabash. The sight of Riverton linking her thought with the past, attached her very definitely to the village life of Palestine.

Every summer a chautauqua is held on the river bluffs at Meron, Ind. All the people of that section of Indiana and Illinois look forward to the event. It is the time and the place where relatives come together for an annual visit and where old sweethearts meet, compare their children's ages, the size of their barns and crops, and talk of commonplaces.

Kate had been to Meron once. That was before she knew Dan, before the summer in the city, before she had definitely decided that a certain village lad no longer interested her.

(To Be Continued)

BIRTH RECORD

The following births were reported at the office of the Board of Health during the week of December 17

Girls

Mr. and Mrs. Henry H. Smith, 354 Tenth street, December 16.

Mr. and Mrs. William P. Adams, Mary Ann township, December 17.

Mr. and Mrs. Jacob A. Ford, 251 Water street, December 19.

Boys

Mr. and Mrs. Willis F. Sachs, 190 Central avenue, December 5.

Mr. and Mrs. Philip J. Schneider, 99 Stevens street, December 18.

Personal

Mrs. Christina Reese of Elmwood avenue is spending the holiduys with her daughter Mrs. Bertha Hawk at Akron.

James Young of King avenue, who has been ill for several days, is able to be out.

Miss Ethel Stover, former registrar in the Board of Health offices, kho is in training at Mt Carmel hospital, Columbus, will return to her duties tonight after spending Christmas at her home here.

Mr. and Mrs. Forrest G. Hall and son Duane of Huntington, Indiana, are spending the holidays with Mr. Hall's parents, Mr. and Mrs. D. M. Hall of South Pine street.

Miss Reda Gray, teacher in the Lakeville high school, is the guest of her mother, Mrs. L. L. Gray in South Pine street.

Miss Florence Thompson In Dramatic Recital At Parish House

Trinity Parish house was arranged with Christmas festoons Tuesday evening when Miss Florence Thompson, student at Northwestern University, gave a dramatic recital.

Her program included Stanley Houghton's one act play "The Dear Departed," Sally Ann's Experience, a musical reading "Contrenez-vous" and the accompaniment was played by Miss Helen Thompson, and the program concluded with a short play. Mrs. Gordon Keith sang two numbers accompanied by Miss Mabel Metz.

A silver offering was taken the proceeds to be used by the Altar Guild.

WELL BRED—IF YOU ARE

You do not stamp yourself as a social climber by constantly referring to celebrities and prominent people in your conversations. To do so indicates that you must have made something of a struggle to know such people or you would not be so eager to mention your achievements.

To those of assured social position such obvious methods of flaunting one's position are ridiculous as well as transparent.

If men were as perfect as their wives expect them to be, there would be mighty little excitement in this world.

EUROPE STILL IS AFFLICTED WITH TROUBLES

Five Years After War Finds Country Still in Turmoil

Unemployment, Depreciated Currency and Other Ills Are Uncured

London.—(By NEA)—Europe five years after the war is afflicted with financial, economic, territorial and racial troubles.

Some Americans looking at the Old World think these troubles may be cured by America's help. Others think it wiser for Uncle Sam to keep hands off.

Whatever you think about it, here is a tabloid picture of Europe at the beginning of 1923:

England—By high taxation has succeeded in making its budget balance. Its currency is well on the way to rising to par with the dollar. But there are still about 1,300,000 persons out of work, whose unemployment doles added taxes had to be raised. The number of jobless is a good indication of how heavily her export trade has fallen off and how hard her great industries have bene hit.

France—Her devastated regions are still largely unrepaired. She is still being taxed to maintain a huge standing army. Having drawn comparatively few cash payments from the Germans, her budget shows an immense deficit. Her currency is way below par. Her birth rate is still showing a dangerous decrease

Germany—Bankrupt at home and abroad. There is a deficit of about 300 billions of marks in her budget She faces reparation demands from the allies that she says she cannot pay. The markets of a great part of the world are closed to her. Her imports exceed her exports and she is getting deeper into debt all the time. The existence of her republican form of government is threatened both by Bolsheviks and Monarchists.

Italy—Faced with a population the care of which taxes the ability of the farms and the factories beyond there means, the country is troubled by the immigration laws of the United States. Development is hampered by the depreciation of the lira with its consequent difficulty to buy raw materials for the factories, and by the huge debt in which the war involved her.

Belgium—Like France, she badly needs the reparations from Germany. Her currency remains depreciated. Her industry suffers from the general business depression in Europe. Internally she suffers from the contest between the French-speaking Walloons and the Flemish-speaking Flemings, which was acceler-ed by German propagandists during the war.

Portugal—Hopelessly in debt, with no chance for betterment in sight, owing to the frequent revolutions which have overturned one government after another

Spain—Has a deficit of over one billion pesetas in her budget. Unrest all over the country, owing to the popular opposition to the Spanish war in Morocco. Catalonia, of which the great industrial city of Barcelona is the metropolis, is causing further unrest by her constant demand for complete autonomy, if not independence.

Holland—Troubled with high taxes and unfortunate speculations in the German mark.

Switzerland—Suffering from paralysis in her two greatest industries—watch and clockmaking and hotel keeping. The high rate of the Swiss money has kept many travelers away.

Jugoslavia—Menaced by external and internal troubles. Inside, the Croats are bitter opponents of domthere is the constant danger of friction with Italy over Adriatic ports and with Hungary over the territory given old Serbia by the peace treaties.

Poland—Her credit is so bad that her currency ranks at the bottom, with those of Austria and Russia. She is compelled to be constantly on the qui vive because sooner or later she fears wars on two borders—the Germans fighting to take back Upper Silesia and the Russians fighting to take back the territory lost a little over a year ago.

Czechoslovakia—In itself a healthy state, but disturbed by the presence of 3,000,000 Germans who long for union with Germany. Has great industrial and agricultural possibilities, but is suffering from business depression, owing to the fact that its currency is so much more valuable than that of possible customers.

Austria—Totally ruined, her money worth nothing and herself a mendicant, waiting to receive alms from the allies through the medium of the League of Nations.

Hungary—Seething with internal discontents, owing to the "White Teror" of the monarchists having replaced the "Red Terror" of the Bolshevika. Seething also with hatred. The proud Magyars are merely awaiting their chance to fight Rumania for the return of the territory west of the Transylvania mountains, and Jugoslavia for the great wheat plains which were once the bread basket of the old Austro Hungarian empire.

Bulgaria—Surrounded by hostile states, faced by reparation demands in the peace treaties with which she has not yet complied, and determined even by force of arms some day to reconquer a path to the sea where she can have her own port of which she was deprived by the allies.

Rumania—Troubled with crippled finances, aggravated by necessity of keeping an army ready to cope with Hungary on one side or with Russia on the other, if the latter attempts to take back Bessarabia.

Greece—With finances ruined and territory lost in her smashing defeat in Asia Minor, she is torn by revolution.

Turkey—Although victorious over the Greeks and a menace to all her neighbors she is ruined financially.

Russia—Ruined financially and economically, ravaged by disease and famine, she is still a menace to all Europe.

Esthonia, Lettonia and Lithuania—In deadly fear of the Russian bear they have been unable to make their government going concerns, so far as business and industry are concerned.

Finland—Suffering also from general business depression and from the Russian danger.

Denmark, Sweden and Norway—Crippled rather than helped in world business by the fact that heir money is up in the world.

An enterprising Japanese cafe manager at Seattle, Wash., has signs advertising his menus painted on the front of his cafe in nine different languages.

Cinderella

Miss Jeannette Morille was christened the Cinderella of Boston recently when she established her right to the title by proving that a child's size shoe, 12 1-2, was needed to fit her petite foot.

VETERANS TO BUY SUMMER CAMP SITE

Cincinnati, Dec 27—Cincinnati has not forgotten her veterans of the World war. In a campaign conducted by teams of leading citizens aided by members of the American Legion and of the Disabled American Veterans of the World war, a fund of $250,000 for the purchase of two clubhouses and a 60 acre summer camp for the use of the city's former soldiers stet been raised. One of the clubhouses is now occupied by the Bentley post of the Legion and the second clubhouse will be erected on Walnut Hills for the use of the 1509 disabled veterans of Cincinnati The camp will be established at Avoca Park on the Little Miami River. The camp has been used the last three years as a summer home for disabled soldiers.

Queen Elizabeth was the first sovereign to use a fork, and a clergyman of her time preached a sermon against it, saying Providence gave us our fingers to eat with.

RESOLUTION NO. 1223.

By MEERS. RIGGS AND BEENEY.

Declaring it necessary to improve North Eleventh Street from Selby Street to West Shields Sreet and Shields Street from North Eleventh Street to Case Avenue, by Curbing and Paving the Roadway thereof.

Be it resolved by the Council of the City of Newark, State of Ohio! three-fourths of all the members elected thereto concurring:

Section 1. That it is necessary to improve North Eleventh street from Selby street to West Shields street and Shields street from North Eleventh street to Case avenue by curbing and paving the roadway thereof in accordance with the plans, specifications, estimates and profiles of the proposed improvement prepared by the Civil Engineer, now on file in the office of the Director of Public Service, which are hereby approved which shall be open to the inspection of all persons interested.

Section 2. The material used in the construction of said improvement shall be asphalt, brick, stone, cement or other material as shall hereafter be determined.

Section 3. That the grade of said street shall be as follows:

North Eleventh Street.

The grade of the curbs of North Eleventh street shall be as described as follows:

Commencing at the south line of Selby street at an elevation of 142.43 feet which is the present elevation of the curbing at this point; thence north by a vertical reverse curve at an elevation 0.28 feet lower than the existing sidewalk 400 feet to the north line of lot No. 3467 at an elevation of 127.8 feet; thence by a straight grade to the south curb line of West Shields street at an elevation of 125.97 feet.

Shields Street.

The grade of the curbs of Shields street shall be as described as follows

Commencing at the east line of North Eleventh street at an elevation of 125.97 feet; thence east by a straight grade to the west line of the first alley at an elevation of 125.32 feet; thence east by a straight grade to the west line of Woods avenue at an elevation of 124.7 feet; thence east by a straight garde to the east line of Woods avenue at an elevation of 124.62 feet; thence east by a straight grade to the west line of the first alley at an elevation of 124.9 feet; thence east by straight grade to the west curb line of Tenth street at an elevation of 125.58 feet; thence east by a level grade to the east curb line of Eddy street at an elevation of 120.97 feet; thence east by a level grade to the east curb line of Eddy street; thence east by a straight grade to the west line of the first alley east of Eddy street at an elevation of 121.37 feet; thence east by a straight grade to the west line of the second alley east of Eddy street at an elevation of 121.77 feet; thence east 78 feet by a straight grade to a point at an elevation of 121.82 feet; thence east by a straight grade to the west line of Central avenue at an elevation of 121.61 feet; thence east by a straight grade to the east line of Cenaral avenue at an elevation of 121.21 feet; thence east by a straight grade 62 feet to a point at an elevation of 120.72 feet; thence east by a vertical curve 121 feet to a point at an elevation of 117.36 feet; thence east by a straight grade 43 feet to a point at an elevation of 15.69 feet; thence east by a vertical curve to the west line of Buckingham street at an elevation of 111.72 feet; thence east by vertical reverse curve to the west end of the bridge over Long Pond Run at an elevation of 112.17 feet; thence east by a straight grade to the east end of said bridge at an elevation of 112.45 feet; thence east by a vertical curve 52.5 feet to a point at an elevation of 114.23 feet; thence east by a straight grade 194 feet to a point at an elevation of 121.22 feet; thence east by a vertical curve to the west line of North Fourth street at an elevation of 124.55 feet which is the present elevation of the curbing now existing at this point.

At the east line of Elmwood Avenue the grade shall be the same as that of the existing curbing which is elevation 1[illegible] feet for the north curb and 1[illegible] feet for the south curb; thence east by a vertical reverse curve at the same grade as the curbing now existing on this street to the west line of the 12 foot alley just east of Elmwood Avenue at an elevation of [illegible] feet; thence by a straight grade to the east line of said alley at an elevation of 10[illegible]7 feet; thence east by a straight grade to the west line of the first alley west of Hudson Avenue at an elevation of 10[illegible] feet; thence east by a straight grade to the west line of Hudson Avenue at an elevation of 107.28 feet which is the present elevation of the curbing at this point; thence east by a straight grade to the east line of Hudson Avenue at an elevation of [illegible] feet which is the present elevation of the curbing at this point; thence east by a straight grade [illegible] feet to the west line of an alley at an elevation of 107 feet; thence [illegible] to the east line of said alley; thence east by a straight grade [illegible] feet to the west line of [illegible] Street at an elevation of 10[illegible] feet; thence east by a vertical reverse curve to the west rail of the B. & O. R. R. tracks at an elevation of [illegible] feet; thence east by a straight grade to the east rail of the B. & O. Railway tracks at an elevation of 104.87 feet; thence east by a straight grade to the west curb line of Maple Avenue at an elevation of 106.38 feet; thence east by a straight grade to the east curb line of Maple Avenue at an elevation of 106.37 feet; thence east by a vertical curve 85.5 feet to a point at an elevation of $103.5 feet; thence east by a straight grade 91 feet to the east line of a 16 ffoot alley at an elevation of 100.1 feet; thence east by a straight grade 86 feet to a point at an elevation of 97.46 feet which is the present elevation of the front edge of the top of a catch-basin located in the north side of the street; thence east by a straight grade 34 feet to a point at an elevation of 96.63 feet; thence east by a straight grade 217 feet to the west line of a 14 foot alley at an elevation of 95 feet; thence east by a straight grade to the east curb line of John Street at an elevation of 91.8 feet; thence east by a straight grade to the eastline of the alley between John Street and Case Avenue at an elevation of 90 feet; thence east by a straight grade to the west line of Case Avenue at an elevation of 89 feet.

The grade of the center line shall be parallel to and one inch lower than the grade of the curbs as described above on all parts of the roadway which is 25 feet wide, which is all of the roadway except between Elmwood Avenue and the railroad where the roadway except between Elmwood Avenue and the railroad where the roadway shall be 20.5 feet wide and the center line shall be 1.5 inches below the grade of the curbs, as shown on the plans and profiles now on file in the office of the Director of Public Service.

Section 4. That the whole cost of said improvement, less one-fiftieth thereof and the cost of intersections shall be asssessed by the foot frontage upon the following described lots and lands, to-wit: all lots and lands bounding and abutting upon the proposed improvement which said lots and lands are hereby determined to be specially benefitted by said improvement and cost of said improvement shall include the expense of printing and publishing notices, resolutions and ordinances required, and the serving of said notices, the cost of construction, together with the interest on bonds issued in anticipation of the collection of deferred assessments and all other necessary expense.

Section 5. That the assessments so to be levied shall be paid in eighteen (18) semi-annual installments with the interest on the deferred payments at six (6) per cent per annum, provided that the owner of any property assessed may at his option pay such assessments in cash within thirty days from and after the passage of the assessing ordinance to the City Treasurer; in which case said cash assessments shall not include any item of interest upon bonds to be issued in anticipation of the deferred installments of assessments.

Section 6. That the bonds of the City of Newark, Ohio, shall be issued in anticipation of the collection of assessments by installments and in the amount equal thereto.

Section 7. That the remainder of the entire cost of said improvement not specially assessed, including cost of intersections and the damages awarded any owner of adjoining lands and interests therein and the cost and expense of any such award shall be paid by the issuance of bonds in the manner provided by law.

Section 8. This resolution shall take effect and be in force from and after its passage and legal publication.

Adopted: December 18, 1922.

H. H. SCOTT,
President of Council.

Attest: E. E. HESS,
Clerk of Council.

ORDINANCE NO. 3404.

By MR. J. J. STOCK.

Amending Section 3 of Ordinance No. 3402, an Ordinance to Determine to proceed with the improvement of Wilson street from South Fifth strete to South Sixth street, by repaving the roadway thereof.

Be it Ordained by the Council of the City of Newark, State of Ohio, three-fourths of all the members elected thereto concuring:

Section 1. That Section 3 of Ordinance No. 3402 be amended to read as follows: That the whole cost of said improvement, less one-half thereof and the cost of intersections, shall be assessed by the foot frontage upon the following described lots and lands, to-wit: All lots and lands bounding and abutting upon the proposed improvement, which said lots and lands are hereby determined to be specially benefitted by such improvement, and the cost of said improvement shall include the cost of printing and publishing the notices, resolutions and ordinances required, and the serving of said notices, the costs of construction, together with the interests on bonds issued in anticipation of th ecollection of deferred payments, and all other necessary expenses, and that the assessment so to be levied shall be paid in eighteen (18) semi-annual installments with interest on the deferred payments at th erate of six (6) per cent per annum, provided that the owner of any property assessed may at his option, pay such assessment in cash within thirty days from and after the passage of the assessing ordinance to the City Treasurer, in which case the said cash assessment shall not include any item of interet upon bonds to be issued in anticipation of deferred installments of such assessment, and that the bonds of tne city of ewark, Ohio, hall be issued in anticipation of the collection of the assessment by installments and in an amount equal thereto, and that the remainder of the entire cost of said improvement not specially assessed, including the cost of intersections and the damage awarded to any owner of adjoining property and interets therein, and th ecost and expense of such award shall be paid by the issuance of bnods in the manner provided by law.

Section 2. That Section 3 of Ordinance No. 3402 be and the same is hereby repealed.

Section 3. This Ordinance shall take effect and be in force from and after the earliest period allowed by law.

Passed: December 18, 1922.

H. H. SCOTT,
President of Council.

Attest: E. E. HESS,
Clerk of Council.

Approved by the Mayor this 19 day of December, 1922.

ORDINANCE No. 3400.

By J. J. STOCK.

Regulating the erection of slaughter houses, etc., and providing for a permit for the operation of the same.

Be it ordained by the Council of the City of Newark, State of Ohio:

Section 1. It shall be unlawful for any person or persons, company or corporation to erect or construct within the corporate limits of the City of Newark, any building for the purpose of being used as a slaughter house, rendering establishment, soap factory or candle factory without securing a permit according to law, or to carry on any such business in any building now erected, unless the same shall be in actual operation at the time of the enactment of this Section, without a permit from the Mayor.

Section 2. A permit shall not be granted for the erection or carrying on of either or any of the above mentioned establishments, or vocations in any block in th City of Newark when a majority of the owners of the lots within a distance of two blocks therefrom, shall protest in writing against the erection, establishment or carrying on of the same therein.

Section 3. Any person violatintg any of the provisions of this ordinance shall be deemed guilty of having committed a nuisance, and upon conviction thereof shal be fined not less than $5.00 nor more than $100.00 and each day such nuisance shall be continued, after notce to abate the same, shall be held to be a separate and distinct offense.

Section 4. This Ordinance shall take effect and be in force from and after the earliest period allowed by law.

Passed: December 18, 1922.

H. H. SCOTT,
President of Council.

Attest: E. E. HESS,
Clerk of Council.

Approved by the Mayor this 19 day of December, 1922.

SAMUEL S. ORR.
Mayor.

ELAINE HAMMERSTEIN and CONWAY TEARLE in "ONE WEEK OF LOVE" A SELZNICK PICTURE

Bob Finlay

Constance Talmadge in "Woman's Place"

EILLE NORWOOD IN THE HOUND OF THE BASKERVILLES

Cullen Landis

David Powell *and* Ann Forrest *in the* Paramount Picture, "Love's Boomerang."

CHANGE MADE IN ALHAMBRA PROGRAM

A change had to be made in the Alhambra program and today and tomorrow that clever star May McAvoy will be screened in "A Virginia Courtship." A good cast of players support Miss McAvoy and a most pleasing entertainment is promised.

BOB FINLAY AND HIS CINEMA REVUE

Something new and novel in motion picture theater entertainment is the personal appearance of Bob Finlay the Mack Sennett Comedian and his Cinema Girls Revue at the Auditorium Theater for four days starting today. The combination of the spoken comedy with the silent comedy is surely unique. Before Mr. Finlay and his company of shadowland players left Los Angeles they made a single reel comedy in which the entire Cinema Girls Revue cast appear with Chester Conklin the famous screen comic. this reel acts as sort of introduction to one of the snappiest little miniature musical revues of the season.

Appearing in the miniature revue with Mr. Finlay in person is Miss Dorothy Bush the Fox Sunshine Comedy Girl, Miss Alfonso Florentine a protege of the great Pavlowa and known as the premiere dansuese of the screen.

CONSTANCE TALMADGE IS CANDIDATE FOR MAYOR

In "Woman's Place," the First National attraction which is coming to the Alhambra theater Friday, Constance Talmadge is said to have been given the peppiest and most interesting screen vehicle that she has had in a long time.

The role in which Miss Talmadge will be seen will be an innovation for Talmadge fans, for Constance enacts the part of Josephine Gerson, belle of the town, who, on her return from Paris, is made to run as candidate for mayor.

The election contest is one of the most unique and amusing ever conceived, according to those who have seen a preview of the picture, and Miss Talmadge is said to be as whimsical and charming as ever.

CLEVER FILM STORY AT THE AUDITORIUM

Like the little boy who loved his porridge, the more you get of "One Week of Love" the more you'll want. Good things are so rare that it is advisable to take this Selznick picture now playing at the Auditorium theater, to your heart at once and give it a good hug.

Miss Elaine Hammerstein, a favorite hereabouts, is very much in the picture as a society girl who would rather ride in an aeroplane than listen to "Faust" from an opera box. Pleasure is a relative thing of course, but we are all for Miss Hammerstein. Dipping in the air is the most pleasant thing in the world, until of course, you lose control of your machine.

When that happens in "One Week of Love" you hold your breath and wonder what's going to happen next. Well, what does? Here's where Mr. Conway Tearle comes in. He is a bold Bad Man an adventurer of the mountains with hair on his chest. Miss Hammerstein's plane happens to fall right through Mr. Tearle's shack. When she regains consciousness, it is to discover that Mr. Tearle is gambling for possession of her with a couple of his bad cronies.

McINTYRE AND HEATH COMING TO NEWARK

McIntyre and Heath conceded to be America's greatest team of comedians are on tour after a year's run in New York, and a local engagement is scheduled at the Auditorium soon.

We have laughed at their "Georgia Minstrels," roared when we saw "Hennery" and "Alexander," in "The Ham Tree," and fairly yelled with sidesplitting glee at the troubles of the colored gentlemen as we saw them in "Hello Alexander." Now we are to have the best of the entire series, "Red Pepper."

In this piece it is claimed by New York newspaper writers that the comedians have eclipsed all previous efforts. If this is a fact, it is safe to venture that the portion of our population who see "Red Pepper" will be in exceptionally good mood for two hours and one half, and possibly for a week following.

MISTAKEN IDENTITY GIVES DRAMA IN "SONNY"

Among the queerest cases of wrong identification resulting from the fatalities of the late war is that of Joe Peters; and the oddest part of it all is that the impersonation of another character was done deliberately. While it might sound even more strange, the truth is that the impersonation was made to further a worthy cause

Such apparent contradictions form the basis of the after the war drama of tender emotions and heart throbs presented by Richard Barthelmess in his latest starring picture at the Alhambra theater Monday, "Sonny." In his role of Joe Peters, a waterfront and poolroom character, the star assumes the identity of Sonny Crosby, scion of an aristocratic family, who had been a fatality in the war.

"QUEENIE" AND JACKIE COOGAN ARE IN TROUBLE

"When a feller needs a friend, he usually can find one in his dog."

That's the way Jackie Coogan feels about Queenie, who played such a conspicuous role in "Peck's Bad Boy" with the little screen star. Now Jackie and Queenie are both in trouble—not real trouble, but a picture called "Trouble," a First National attraction that will be seen at the Auditorium theater next week.

MUSICAL REVUE FOR NEW YEAR'S EVE

The newest sort of entertainment is the combination of musical comedy and vaudeville as offered throughout the country by the Shuberts. You saw "Gimme A Thrill," now you are offered "The Midnight Rounders" for New Year's Day with a special New Year's eve performance beginning at midnight.

"The Midnight Rounders" is a condensed version of the musical comedy production of the same name in which Eddie Cantor starred last season and in which is promised that all the best comedy material and musical numbers of the original have been retained, besides the addition of new and original embellishments.

Unlike a majority of the Shubert vaudeville attractions, "The Midnight Rounders" does not draw a line between its vaudeville features and the revue itself. The various individual acts are interspersed throughout the action of the piece as a whole. For instance, Joe Smith and Charles Dale, who are the chief comedians of the company, find an opportunity of introducing their sketch, "A Hungarian Rhapsody," as well as other individual features into the general run of the performance. This is also true of Jane Freen and Jimmie Blyler in their singing and piano act. Davey White and Jean Carroll in "Ranceland"; Jack Strouse, Frank. J Corbett and Lillian Washburn in "A Comedian Wanted"; Regal and More, comedy acrobats in "Circus Days"; Lola Chalfonte, Prima Donna and Jack Levy and his musical girls.

Seats for all three performances go on sale Thursday at 10 a. m. Special entertainment and stunts are promised the midnight special show.

ETHEL CLAYTON IN "IF I WERE QUEEN"

Ethel Clayton outdoes herself, according to the critics, in her first big starring subject for the Film Booking Offices of America. It is called "If I Were Queen," is founded on the novel "The Three Cornered Kingdom by Du Verret Rabell and is scheduled for exhibition at the Grand theater for four days next week. A distinguished cast including Warner Baxter, Andree Lejon, Murdock MacQuarrie, Genevieve Blinn and Victory Bateman supports the star Wesley Ruggles was the director.

"THE FORBIDDEN CITY" WITH NORMA TALMADGE

When "The Forbidden City," starring Norma Talmadge, comes to the Grand theater tomorrow and Friday, Thomas Meighan will be seen in the leading male role opposite the star. Mr. Meighan will be remembered for his brilliant stage career before entering motion picture work, and also for the number of big pictures he has appeared in during the last several years

While on the speaking stage, Mr. Meighan had a year to his credit with Grace George. He has been leading man for Billie Burke, and was with William Collier in "The Dictator." His most noteworthy appearances on the screen were in "Puddin'head Wilson," "The Miracle Man," "Conrad in Quest of His Youth," "A Prince There Was" and "The Bachelor Daddy."

WAREHOUSE IS BUSY SUPPLYING COMEDIAN

A furniture warehouse in Hollywood, California, is kept busy supplying Larry Semon with articles to smash up. In "Golf," a comedy which will be shown at Grand theater tomorrow and Friday, Larry destroys several hundred dollars' worth of furniture. A potter is kept constantly at work providing reproductions of art treasures so that the comedian will have enough brica-brac to destroy in his comedies. In "Golf" some rare pieces of statuary and vases are ruined.

"I'd rather be hit by plaster than by a custard pie," said Larry, who has the reputation of being the man who put the smash in pottery.

CLEVER FICTION IN THE DETECTIVE STORY

The greatest fiction story that ever came from the facile pen of Sir Arthur Conan Doyle, "The Hound of the Baskervilles" will have its farewell showings today at the Grand theater where it has had a triumph engagement. All the mystery, suspense and thrill that made "The Hound of the Baskerville" one of the greatest sellers in all the history of detective fiction are found in the photoplay, which is distributed by the Film Booking Offices of America.

TRAMPS

The age of the average tramp before the war was fifty years. Now it's thirty-two. And the 1922 model tramp rides on auto trucks instead of freight trains This information is from the report of a New York welfare association with a name as long as Barnum's Cardiff giant. The association is seeking a way to reduce the number of tramps. Quickest way is to give them the jobs they seek. Second, and impossible, is to kill the wanderlust that exists in every human, a psychoanalytic complex, reaction from the dull grind of civilization.

Qualities That Hold Friends

Holding friends is harder than winning them. This requires the rare art of "wearing." Wearing implies steadfastness, freedom from vacillation. It comes through the avenue of integrity. The man who wears is the man who can pass through life's severe storms and come out unharmed. The house of his life is built upon the rock.

PLANETS AND STARS.

It is easy to distinguish a planet from a star because a star twinkles and a planet never does except when it is near the horizon Also, planets are brighter They are nearer the earth and their light is reflected to us like the moon. Stars are fixed bodies outside our solar system.

There are many different kinds of success. Fortunate is the man who can take his pick.

PROSPERITY IN GERMANY IS NOT GENUINE

Head of German Electrical Trust Tells of Business Conditions

Business Men Watch Capital Melt Away as Mark Depreciates

(This is a fifth of a series of articles dealing with conditions in Germany, written after a personal investigation by a NEA staff writer. —Editor)

B -lin, Dec. 27.—(Bl NEA.)—"Germany's socalled prosperity is more real than a brick painted with gold is a genuine ingot. It is appearance without substance.'

The man who said this to me was no German politician, talking about reparations, but Herr Felix Deutch, active head of the greatest single business concern in Germany—the famous Allgemeine Elektrische Gesellschaft—hugest electrical trust in the world—and president of one of Germany's biggest banks.

"To illustrate," continued Herr Deutsch, "how present prices and conditions affect people

"Take a business man with small capital who formerly bought a machine for his factory for 10,000 marks. He put aside a 2000 marks yearly amortization fund, so that when the machine wore out he had enough to buy a new one. If he same machine costs him today 400,000 marks, even if he can pay the purchase price, he cannot put aside the amortization fund. When the machine is worn out, he is through

"Or say a man has 1,400,000 gold marks capital in his business. Apparently he is doing splendidly, earning 100 per cent on his capital, but with the fall in the mark s value his presented capital and earnings together are worth only 400,000 gold marks and really he is 1,000,000 gold marks loser.

"People say the great industrial soncerns have money abroad. This has been greatly exaggerated.

"True, big undertakings have to have dollar credits Since the Versailles treaty, with its amputation of territory from us, Germany does not produce many raw materials. She has to buy not only copper, lead, wool, cotton and flax, as before the war, but iron, zinc, coal and a great deal more of her food.

"This excess of imports over exports doesn't betoken prosperity. A nation, like an individual, which buys more than it sells, is getting deeper into debt or consuming its capital.

"Much industry you see in Germany is supplying German needs They are paid for in paper marks but the raw material is bought in foreign currencies

"Between Berlin and Vladivostok are 300 million human beings who need our manufactured goods, but can't pay for them. There are lands which can pay but have put up a wall against us—high tariffs or antidumping laws I mean England, France, the United States, Czecho-Slovakia We still have a market in South America and to some extent in Asia.

"We haven't the gold to pay the allies and we can't pay in goods—they lock us out.

"References are made to the lack of unemployment in Germany.

"Employment is valuable to a country only when adding to its wealth. Remember the coal and other materials we have to supply to the allies. So far as Germany is concerned the men so employed might as well be jobless.

"Neither the German government nor business men want to depreciate the mark. If Germany sold more abroad than she buys abroad, there might be something in the claim, but with imports exceeding exports, the cheaper the mark the worse for us."

The next article dealing with the threat of German civil war, will appear in an early issue.

The Christmas entertainment of the Trinity Episcopal church will be held in the Parish house Thursday evening at 7 o'clock.

GO ABROAD FOR OPPORTUNITY

Probably no saying of Horace Greeley, the beacon light of multitudes of three-quarters of a century ago, was more widely read, more generally followed, or longer remembered than his continually reiterated exhortation, "Young man, go West!"

That, says the San Francisco Chronicle, was a satisfactory way of relieving what was then thought congestion of population in eastern communities, but it no longer answers the purpose. Today the place for the enterprising young man to look for is in some undeveloped foreign country. It will be a new thought to most of us that the time has come when we must consider emigration as well as immigration—tha there are lands of opportunity other than our own.

This was emphasized recently by Frank D. Watterman, a name well known to those who do not habitually use a typewriter, with special reference to the centenary celebration which begins at Rio Janeiro, Brazil, next September. It has become a necessity with us, as it has long been with overpopulated Europe, to seek outlets in foreign countries for the surplus products of our workers. The one way to do it is by commercial missionaries going to foreign countries while still forming their minds, and staying there. That is the way Europe has built up trade in undeveloped countries. That is the way we must adopt if we expect to successfully compete with those countries.

OH, NOTHING LIKE THAT

Patricia and Billy are two lovable children, but seem to enjoy a triumphant satisfaction when one is punished and the other is not. Not long ago Patricia while being dressed became so hilarious that it was necessary for mother to give her a gentle smack.

Billy in the next room called out "sister, is mother punishing you?"

Whereupon sister immediately replied, "no, she was killing a moth."

"PAINTING THAT!"

When Miss Lucy Hartrath, who paints a great deal in Brown county, begins work on a canvas she dislikes to be bothered by curious folk.

"Invariably they ask," said Miss Hartrath, "whether I am painting that scene out there and there I am at work on it at the moment!"—Indianapolis News.

Obituary

George E. Brady.

George Elmer Brady, 58, died at the home of his brother, Cory Brady, in Alexandria, Tuesday.

Death was due to lobar pneumonia. He was ill but five days.

The deceased is survived by his widow, one daughter Lillian of the home, two brothers, Cory and Ernest of Alexandria, and two sisters Mrs. Abner Reese of Alexandria and Mrs. Lee McLaughlin of Newark.

Services will be held Friday at 1:30 o'clock central standard time in Kirkersville M. E. church and burial will be made in the Kirkersville cemetery.

Mrs. Sarah Jane Miller.

The body of Mrs. Sarah Jane Miller, who died Tuesday at the home of her daughter Mrs. Roderick Jones was sent to Bellevue this morning via the Baltimore and Ohio by J. A. McGonagle, where funeral services will be held.

E. T. Rugg

Funeral services for E. T. Rugg who died Sunday in a Philadelphia hospital were held this afternoon at 2 o'clock in the home in Hudson avenue. Rev. Forrest L. Fraser, pastor of the First Baptist church officiated and burial was made in Cedar Hill cemetery.

Banks and Building and loan companies closed during the hour of the funeral.

Orville Black.

Orville Black, aged 63 years, died Tuesday afternoon at his home in Putnam avenue, Zanesville. His death followed a few days illness of gall stone trouble.

Surviving are a widow, one son, Horace J. of Zanesville, one daughter, Mrs. Vella Melvin of Columbus, two grandchildren, one brother and one sister.

Funeral services will be held Thursday afternoon at 1 o'clock and burial will be made in Kirkersville cemetery.

[illegible] Clunis and Householder company went to Zanesville yesterday to take charge of the body.

Emma Symatha Peck.

Emma Symatha Peck died December [illegible] 1922, aged 3 years, 3 months and [illegible] days. She was preceded by her father one year and 10 months [illegible]. She leaves to mourn the loss [illegible] mother, one sister Carrestine and one brother William James; also [illegible] brother, two grandfathers, [illegible], other relatives and [illegible] friends.

Darling Emma

[illegible] gone, but not forgotten.
[illegible] Emma
[illegible] your voice still
[illegible] will lay in a grave, cold [illegible]
[illegible] will you play with us.
[illegible] Emma we will wait and meet [illegible] at the Golden Gate.
[illegible] by her Uncle Harry [illegible] Aunt Maud Gruber and also by all who knew her. 12-27-1tx

The "Lantern Cooler's" Profession

Among the theatrical agencies where talent is to be employed for all occasions a new calling is that of "lantern cooler." What is meant is that at some small movie shows a variety turn is put on between the reels whilst the projector recovers from a passionate six reel film.

FIELD SHOW IS IMPROVED

New Ideas Incorporated By Son-in-Law and Daughter of Originator Add to Charm of Production.

Just like Christmas the Al G. Fields minstrels come once a year and the customary capacity audience greeted this organization at the Auditorium theater yesterday.

Built, staged and directed by Edward Conrad, son-in-law of the late Mr. Fields, the show this year overtops even its many other successful productions. Mr. Conrad, who is with the show, was joined here yesterday by Mrs. Conrad. To Mrs. Conrad is due the credit for the unusually attractive selection of color effects in the costumes.

The show is essentially new. It opens with a short prologue, showing the Robert E. Lee pulling out from her dock, and the next scene is the deck of the boat with the minstrels taking their place. The band in blue satin costumes, the singers in lavender and purple and the black face dancers in gold and red.

There are two outstanding features the ensemble singing and dancing. A wealth of volume, was noted in all the chorus work, and solo dancing gives way almost entirely to a dancing chorus. A quintet of black faced fun makers takes care of the laughs and last night the laughs were almost continuous. Bert Swor is the premier, and his admirers found him funnier than ever, although according to his own announcement he could not sing because of a heavy cold. Working with him are Jim Swor, John Healy, Nick Hufford and Rody Jordan.

The old favorites Billy Church and Jack Richards were enthusiastically received and Richards closes the first part with "For the Sake of Auld Lang Syne" and a picture of Al G .Fields is flashed. Both Church and Richards have a clever singing act in the olio, which is attractively staged in black and white.

Edwin Jones, possessing a good baritone voice, sang "Time after Time," and other ballads were well sung, by Walter Dorsey and Ola Ellwood, the latter a clever yodler. The Doran Brothers have a dancing act in the first part which goes big.

One of the best musical acts to be heard here in some time was that of Carl Comeron's Saxoland five featuring Rody Jordan. The comedy was sufficient and really funny enough to amuse, and the music was good. Bert Swor as the mail man who reads all the post cards put across some clever comedy in monologue and the show concludes with a fantasy "A Messenger to Mars" in which the entire company is used and Jim and Bert Swor and Healy say and do funny things and Billy Church sings "Jerusalem" with splendid support from the chorus.

The entitre show is beautifully staged and the lighting effect is good.

NEVER AGAIN TOO SOON

He and his sweetheart had quarreled violently. With what dignity he could master he walked to the hallway, put on his coat and hat, and started out the door. With vehemence, she yelled:

"If I never see you again, it will be too soon."

Advocate Want Ads bring results

ROMANS BELIEVED IN OMENS

The ancient Romans were great believers in signs and seldom cared to undertake an enterprise without consulting them. Some persons looked at birds flying overhead. Others cut up animals, to see what "signs" were inside. Perhaps most interesting of all was the cutom of keeping certain chickens and calling them sacred. If some one wanted to know if a plan would succeed, he tried to feed the chicken. If they ate heartily, it was a good sign. If they refused to eat, the plan was probably given up. When a Roman died, food and drink were placed beside his body in the tomb. Animals were sacrificed, and milk or wine was thrown on the ground. This was repeated every year. If the relatives forgot, the soul was supposed to become evil and to bring bad luck. Animals were sacrificed in honor of the gods, as well as for the spirits of men. Pigs, oxen and sheep were the creatures most often killed. Flour and salt were sprinkled over each animal, its head was covered with cloths, and then the priest raised a large knife or an ax for the death dealing blow. Prayers were said by those looking on. The bones and fat were placed on the altar and burned.

COMPANY B WILL SEE INAUGURATION

J. W. Little, Fallsburg.
E. T. Denman, Hanover.
Dornway Blamer, Monroe.
John Duncan, City.
W. A. Morton, Bowling Green.
Edward Roberts, Newark.
John I. Undenhoffer, City.
Russell Wickliff, Harrison.
Charles Essex, Etna.
E. L. Beeney, City.
William Brooks, Newton.
O. A. Hamilton, Washington.

SUSPENDS LICENSE OF AUTO SPEEDER

W. A. Smith, colored of 268 Buckingham street, was arrested this morning by Chief of Police Sheridan and Officer Hurbaugh on a charge of speeding on East Main street. In municipal court Judge Bolton assessed the usual fine of $10 and costs and also suspended Smith's license for ten days.

MOULL STREET GIRL GETS BEENEY AUTO

Pauline Snare of 130 Moull street was awarded the Pierce-Arrow toy auto given away December 23 by Howard Beeney of the Newark Cycle and Supply company. Miss Pauline turned in a total of 1376 tickets, which had been obtained by adult friends in their visits to the store during the term of the contest. A ticket on the auto was given away free to each person entering the store, the contest being to obtain the largest number of tickets.

Harold Roach was second high in the contest, turning in 1080 tickets. There were a great many entrants. John Pennick acted as judge.

NEWS IN BRIEF

Will Entertain Vets.

The Daughters of Veterans will entertain Civil war veterans and their wives at a chicken dinner to be held Friday evening at 5 o'clock at the Grand Army hall.

Held For Forgery.

R. B. Hyness was bound over to the grand jury by Judge Bolton of the municipal court this morning on a charge of forgery. Affidavit was filed by Charles Elliott on whom Hyness attempted to pass a worthless check.

Father is Held.

W. H. Van Winkle was arrested on an affidavit charging him with non-support of his minor child and was bound over to the grand jury today by Judge Bolton. Bond was fixed at $200.

Held to Grand Jury.

J. H. Morgan, arrested several days ago at Mt. Vernon and returned to Newark on an affidavit sworn to by George Long, was bound over to the grand jury this morning in municipal court by Judge Bolton. Long alleges that Morgan obtained two vacuum sweepers by misrepresentation. Bond was fixed at $300 and Morgan was lodged in the county jail to await the action of the grand jury.

Sheep and lambs, receipts 150; steady; sheep $8.75; lambs $15.75

Calves, receipts 50, steady; top $1.00.

Wall Street.

New York, Dec. 27.—Resumption of yesterday's buying movement imparted a firm tone to opening prices today. New high records for the year were established during the first few minutes by Piggly Wiggly, Stewart-Warner, Stromberg and Studebaker, the latter touching 141 7-8 or 1 1-4 points above yesterday's close. Good buying also was noted in American Locomotive, Baldwin, Butte and Superior, American Sugar, Republic Steel, preferred, producers and refiners, Central Asphalt and California Petroleum, the gains ranging from large fractions to 1 1-2 points. Marine preferred dropped to 43, the lowest price of the year. Foreign exchanges opened easier.

Early gains were not long maintained, the market sagging around the end of the first hour in response to a large volume of profit taking and short selling which depressed many shares one to three points below yesterday's closing figures. Pan American A and B, Fisher Body, Stromberg Carburetor and Lackawana railroad turned decidedly weak, each dropping two points or more. Mexican Petroleum opened 10 points lower at 290. Lack of support for some of the high grade railroad shares and a weakened technical position resulting from the rapidity of recent advance among certain industrials precipitated much of the selling. Towards noon the market showed signs of recuperative power, Baldwin rallying two points and Producers and Refiners, United Fruit and Kresge following it to higher ground. Call money opened at five percent.

Chicago Produce.

Chicago, Dec. 27.—Butter: lower; creamery extras 51c; standards 47@47 1-2c; extra firsts 47@51c; firsts 44@45 1-2c; seconds 42@43c.

Eggs: higher, receipts 3,038 cases Firsts 39@41c; ordinary firsts 35@36c, miscellaneous 27@38c.

Chicago Grain Review.

Chicago, Dec. 27.—Fresh upturns in the value of wheat took place today during the early dealings, higher quotations at Liverpool counting as a bullish factor. Talk was also current that there had been a liberal amount of export business overabnormally low condition of the domestic winter crop were a subject of night. Besides advices regarding the comment. The opening which ranged from 3-8c to 1c higher, with May $1 28 to $1.26 1-4 and July $1.15 to $1.15 3-8 was followed by a moderate reaction and then by further new gains.

Corn and oats, were firmer in sympathy with wheat and as a result of scarcity of offerings. After opening 1-8c to 5-8c higher, May 72 1-2 to 72 7-8c, the corn market scored a slight additional advance.

Oats started a shade to 1-8@1-4c up, May 45 7-8 to 46, and later ascended a little more.

Higher quotations on hogs gave a lift to provisions.

Cleveland Produce.

Cleveland, O., Dec. 27.—Butter, extra, in tubs, 56 1-2 to 57; one pound prints 57 1-2 to 58; extra firsts 55 1-2 to 56; firsts, 5 1-2 to 55; seconds 8 1-2 to 9.

Eggs, fresh gathered northern extras 3; extra firsts, 1; Ohio firsts, 39; western firsts, new case, 38.

Oleomargarine: nut oleo 20c; high grade, made of animal oil 25@25 1-2c; lower grades 16@17c.

Poultry, live heavy fowls, 20@21; broilers, fat 22; ducks, 22; geese, 17 to 19; turkeys 35@0.

Cheese: York state 29@30c, brick 26@27c; fancy Swiss 30@45c; limburger 26@27c; capons 32c.

Rabbits: Ohio $3@3.25 a dozen.

Potatoes: Idaho russets $3.25 a hundredweight; Red River Ohios, $1.25@1.35 a hundredweight; Wisconsin round whites $1.80 150-pound sack; Idaho sacked rurals $2.25 a sack.

Sweet potatoes: Virginia $2 25 a barrel; Jersey $1.50 a hamper; Delaware 80@90c a hamper.

THAT'S DIFFERENT

Times were hard and bill collectors came nearly every day to see Ole. This annoyed him very much Every time a collector came in he threw up his hads, shook his head and talked Norwegian. One day a mowing-machine collector called and found another collector ahead of him, also trying to get money from Ole.

"I've been working on him for nearly an hour, but the poor fellow can't understand a word of English," said the first collector, "so there's no use of wasting any more time on him."

"That's too bad," returned the other. "I wanted to tell him that as I was coming up the road one of his cows broke through the fence and is—"

Before he could say another word, Ole jumped three feet from the ground and shouted. "By yiminy jumpup, var she go?" and disappeared down the road in a cloud of dust.—Forbes Magazine.

Sure 'Twill.

Ma: It says here that most headaches are caused by eyestrain.

Pa: Well, I guess the return of the long skirt will cause a big decrease in national headaches.—New York Journal.

TRANSFER NEWARK MAN TO ZANESVILLE

P. H. Richards, who has been resident manager of the Newark branch of the Ohio Industrial Endowment company, has assumed the position of manager of the Zanesville branch, of that company.

Mr. Richards succeeds J. Reichart, who resigned, Mr. Reichert was made manager in November when William H Smith, Jr., was killed in an automobile accident. Mr. Richards has been local manager for the past two years and was instrumental in establishing the Zanesville branch.

WIFE OPERATES ON HER HUSBAND

San Jose, Cal., Dec. 27.—Ed (Strangler) Lewis, world champion heavyweight wrestler, was operated on by his wife, Dr. Ada Morton Lewis, for a gathering on the wrist, it became known today. Lewis is believed to have infected the wrist when he rubbed it against a ring post during a match in Kansas City. He came to his home here to spend the holidays and the operation was deemed necessary.

STATE TESTS LIQUOR.

Columbus, Dec. 27.—Samples of poisoned whisky that caused the death of Ralph Longley, the blindness of two others and the illness of 16 at Shelby, last Saturday, were received today at the office of Don V. Parker, state prohibition commissioner. The liquor will be sent at once to the state chemist where tests and analysis of its contents will be made.

WIRE BRIEFS.

Washington: Conrad E. Spans will retire January 1 as federal fuel distributor and is to return to his former railroad post in Chicago.

New York: Fourteen ships, battered by successive hurricanes, smashed their way into New York harbor.

Victor H. Arnold, former Wisconsin banker, who recently hired the town hall in New York "to teach truth in religion," is arrested on fraud charge.

Paris: France gets a substantial victory when the allied reparations commission overruled Great Britain, declaring Germany in deliberate default in wood deliveries.

WONDERFUL PIECE OF WORK

The bureau of standards was recently asked to measure what is probably the smallest piece of engraving on glass in the world. The engraving consists of the Lord's Prayer (57 word version) engraved on glass in a space of .001 by .002 of an inch. The writing can only be seen under a high powered microscope, the magnification required being from 900 to 1,000 times. The measurement by which the above dimensions were determined were carried out in the laboratories of the bureau.

The extremely small size of this engraving will be realized when it is considered that if a square inch were entirely filled with writing this size the entire Bible could be written 25 times in that space—in other words, something more than 20,000,000 words could be written in a square inch.

ACCOMODATING

She (coyly)—"Can you drive a car with one hand?" He (knowingly)—"No, but I can stop."

PREXY FAVORS BULLDOG PIPE

Harding Has Battery of Seasoned Pipes From Which to Draw Solace.

Washington, Dec. 27.—(By NEA.) No president ever had both inspiration and consolation more readily at hand than Warren G. Harding.

At the left on his desk is a framed, cabinet-size picture of George Washington.

This likeness is before Harding in every conference, as he ponders every problem, a constant inspiration and a perpetual reminder of the wise warnings of the "foundling fathers."

At the President's right, for consolation when inspiration fails, is a mahogany humidor holding the battery of presidential pipes, ranked upright like rifles racked in an arsenal.

There are four—one with long, straight stem; one long and slightly curved, and two shorter ones, one approaching bulldog bluntness. And they do say he has been smoking the bulldogish one more frequently of late.

James Shera Montgomery, massive and dignified chaplain of the house of representatives, has a warm spot in his heart for the hobo.

As a youngster in Shelbyville, Ind., Montgomery used to pay frequent visits to Muncie. Car fare not being plentiful, he resorted to "bumming a freight."

Twice on one trip young Montgomery had been hoisted from his flat car Pullman by a husky brakeman's toe. But each time he managed to climb aboard again.

At the third discovery the irate brakeman demanded:

"Say young fellow, where the hell you goin'?"

"To Muncie, if my pants hold out."

The poised boot dropped. The trainman's frown changed to a grin.

"All right, kid," he said. "Just outa sight, though, will ya."

With the departure of Uncle Joe Cannon, March 4, Nick Longworth of Cincinnati, son-in-law of T. R. and the baldest man here, promises to become the hitching post of congressional jokes.

For two score years, Uncle Joe has been the acquiescent but of every good story around the capital.

Stanley Bowdle, now dead, who defeated longworth in the Democratic landslide of 1912, probably hung the one on Nick that will stick the longest. Apropos of Longworth's shining pate, Bowdle said:

"Nature scalped Nick, but I skinned him."

LEGION WINS ANOTHER WAR CHEST VICTORY

Indianapolis, Dec. 27.—Impetus has been given the American Legion's efforts to control the millions of dollars left over in war chest funds, and it is predicted that the legion will win 100 per cent of its cases, following the decision of the Ohio court of appeals as announced by Gilbert Bettman, department commander of Ohio, through the national headquarters.

The court of appeals decision turns over to the legion posts of Ohio the principal of a war chest fund involving $54,000. This is the third victory for the legion in such cases. These cases establish precedents for the collection by the legion of the residue of money accumulated by various organizations during the war for the benefit of soldiers, sailors and marines then in the fighting forces.

The higher court has made the legion's stand stronger than ever, by holding the legion to bear the same relation to the world war as did the Grand Army of the Republic to the Civil War.

Lemuel Bolles, national adjutant of the legion, explained the nationwide effects of the decision.

"The court has even gone beyond tees in the lower court asked that the legion requests in that the trusthe fund be held for ten years and the income used under supervision of the American Legion for ten years, then the principal be turned over to the legion.

"The court of appeals, however, voluntarily held that the principal of the fund in question be forthwith distributed to the American Legion posts of the state, at the same time adding that the United States government would take care of the disabled.'"

The two lower court decisions establishing the legion's right to these funds, were in Athens county, Ohio, tried in Cincinnati, and at Vevay, Indiana, the later involving a $5000 fund. In the Indiana case the trustees were attempting to use the $5000 for a county nurse. They were enjoined by the court from such use, and the money was given to trustees designated by the legion for the purpose of erecting club houses for the local legion posts which would stand as permanent war memorials in the county.

These court actions, inaugurated by Mr. Bettman and successfully carried through, were followed by a ers of the United Staes from he nabulletin to all department commondional adjutant, who concluded:

"The money is yours—go get it."

QUAKER QUIPS.

(Philadelphia Record)

The people who buy their friends always look for a cash discount.

Some people never pay till the collectors come, others pay as they go.

If you want to bet on a sure thing, pick out one that has already happened.

Time is money, unless a man wastes a dollar's worth of time trying to save a few cents.

The man who would rather be right than be President finds it quite possible to be neither.

It's a mighty convenient sort of memory that enables a man to remember what to forget.

Some people do so much talking about their ancestors that they are apt to forget themselves.

Truth lies at the bottom of the well, but it is easier to float a false rumor than to sink one.

There is plenty of room at the top, but the first thing the nervous man does is to look around for the fire escapes.

Silicus—"Huh! What do you know about women, anyway?" Cynicus—"Absolutely nothing. A little learning is a dangerous thing."

Muggins—"Boggs says he is a man of iron." Biggins—"He looks pretty rusty just now." Muggins—"Maybe he was caught out in the rain."

The Magistrate was inclined to be lenient. "If I let you off this time," he said, "will you promise never to be here again?" "Sure," replied the prisoner. "I wouldn't have been here this time if it hadn't been for the cop

PIN HOPE ON LAUSANNE

Americans in Constantinople Hope That Conditions Will Be Stabilized By Peace Conference.

(Special to the Advocate)

Granville, Dec. 27.—Prof. and Mrs. Forbes B. Wiley received a letter just before Christmas from Mrs. Wiley's brother, Professor Harold Scott of Roberts college Constantinople, in which he states that Armenian and Greek Christians are fleeing from the city at the rate of more than a thousand a day, and that 200 students have left the college which is an American possession. He says that the surrounding territory is even now so over crowded with refugees that the suffering is unparalelled. The Americans in the city are pinning their faith to the outcome of the Lausanne Conference where President Gates of Roberts college is in attendance.

The Fanny Doane Home for missionaries children was the scene of a pretty Christmas party Monday evening, where Miss Charlotte Clark the offical head of the institution received about 50 friends and relatives of the children. Decorations appropriate to the occasion brightened the rooms and a play was given by 15 of the children for the pleasure of the guests. During the evening informal announcement was made by Miss Clark of her engagement to Dr Fred T. Haggard, pastor of the Baptist church in Wolfboro, N. H., the wedding to take place sometime in the spring.

Miss Clark has served for several years as head of the Doane home and as a member of the Granville board of education She was successful in the publicity campaign last year, for the issuing of bonds for the New Centralized high school building

Dr. Haggard is well known in Granville and to Baptists throughout the country

Mrs. J. D. Thompson entertained at Luncheon at her home in West Broadway for the pleasure of her sister, Miss Clara Wright of Columbia, Mo., who has been the Christmas guest of Granville relatives. At the table in the dining room covers were laid for: Mrs. Fred McCollum, Mrs. John Owens, Mrs. Albert Guckert, Miss Ethel Jones, Mrs. Edson Rupp, Mrs. Walter Wright, Miss Addie Slack, Mrs. Ben Woodbury, Mrs. Nina B. Shepard, Mrs. E. H. Hammond, Mrs. O. H. Burriss of Ada.

Miss Wright was also honor guest at a bridge party of five tables given by her brother and sister-in-law Mr. and Mrs. Walter Wright Saturday evening at their home in South Pearl street.

Prof. Walter J. Livingston left Tuesday night for New York where his headquarters will be Hotel Astor during the four days sessions of the National Intercollegiate Athletic association; the National Physical Directors society, the National Coaches association and the National Health society.

Mr. and Mrs. Charles Wright of West Maple street entertained with a Christmas dinner on Sunday at which covers were laid for Mrs. Lou Bentz of Bexley, Columbus, Mr. and Mrs. Guy Wright and sons Henry and Dale Wright of Newark, Mr. and Mrs. T. J. Davis, Mr. and Mrs. Allen Wright and sons of Granville.

Christmas day Mr. and Mrs. S. Allen Wright had as guests Mrs. Wright's parents Mr. and Mrs. S. P. Fike, Mr. and Mrs. O. P. Fike and family of Newark.

HIS WAY.

"I felt kinda lost for a spell after I sold the [illegible] and came down to live with my niece," admitted the retired farmer. "I missed the family [illegible] there weren't enough [illegible] to keep me busy. The family [illegible], too, were absent, and at first I couldn't get used to the [illegible] young lady on the left [illegible] piano, the folks on the [illegible] talking machhine [illegible] across the street practicing [illegible] and so forth. They [illegible] time by I took to [illegible] on the back porch and [illegible] quiet my nerves. And [illegible] after a good spell [illegible] of the neighborhood [illegible] pester me at all."—Kan[illegible]

[illegible] Stevens, chief instructor [illegible] for the United States [illegible] Field, Missouri predicts [illegible] in a short time one third [illegible] population of this country [illegible] all sorts of dirigibles [illegible] "vest pocket" size to [illegible] with 10 to 20 [illegible] declares that the ma[illegible] equipped with safety [illegible] passengers in case [illegible] float safely to earth.

Marry Another, Will He!

If her sweetheart had not married the "other woman," he might not have got into trouble. Miss Annis Helene Norwood, shown here, of Ipswich, Mass., gave police a tip, they say, which led them to arrest her soldier lover Al Powers on a charge of assault
